

Course Title: TRK 110 Introduction to Commercial Vehicle Transportation

Course Instructor(s): CVT Staff

Expected Learning Outcomes:

1. Plan and log cross country exercises
2. Apply the proper pre-trip procedures
3. Identify all control systems on a CMV
4. Comply with State and Federal Laws of commercial transportation

Assessment (How do students demonstrate achievement of these outcomes?)

1. Students must complete log book.
2. Students must complete a pre-trip.
3. Students must pass final exam on classroom curriculum.

Validation (What methods are used to validate your assessment?)

1. Students must pass the state MVA exam for CDL licensure

Results (What do the data show?)

1. 97.2% completion rate

Follow-up (How have you used the data to improve student learning?)

1. CVT has updated teaching methods
2. CVT has obtained current curriculum guidelines from state, local and federal agencies

Budget Justification

(What resources are necessary to improve student learning?)

1. Maintain Safety equipment on all CVT equipment.
