

Student Affairs Governance Committee – January 29, 2009 – Communicable Disease

Present: Carol Rowland, Carolyn Cox, Joan Bontempo, Donna Rudy, Michael Parsons, Karen Hammond

We decided that the draft policy on Communicable Disease is ready for the feedback phase. All members were asked to present the draft policy to their reference groups for feedback: Joan, Karen and Mike – Faculty Assembly, Karen – Nursing Department, Carolyn – Student Affairs Council, Donna – SGA, President’s Council. After the feedback phase, it will be submitted to the President and then to the Board of Trustees. The draft policy is attached.

The next topic, an anti-discrimination policy, was introduced. We talked about having similar policies from other Maryland community colleges to review at our next meeting. Also, we discussed the importance of having a College campus environment that is welcoming to all and encourages students to explore ideas in an accepting climate.

Respectfully submitted,
Donna Rudy
