4. Understand French in uncomplicated and controlled contexts; understand French spoken slower than normal pace, a significant amount of French spoken at normal pace, and increase skills and coping strategies for filling in the gaps for imperfect comprehension.

5. Have a workable concept of French culture and cultural values and be able to appreciate differences in culture such as levels of formality, diversity and geographical factors; make contrasts and connections between aspects of US and French culture.

6. Gain insights into their own language and culture.
Assessment (How do or will students demonstrate achievement of each outcome? Please attach a copy of your assessment electronically.)

Outcome #1 – Students write answers to questions in French on various topics. Students write a paragraph of between 100 - 150 words in French where they write an exchange between a waiter/waitress and themselves inquiring about the location of a telephone where they may make a call and then placing an order for something to eat and drink.

Outcome #2 – Students answer ten questions (orally) and are rated on their fluency, syntax, comprehension, and accuracy.

Outcomes # 3 & 4 – Students take tests after every two lessons and a final exam where they have to read, comprehend and write answers in French.

Outcome # 5 & 6 – Students reflect on all of the cultural work they have done over the past four semesters. They consider the articles they have written, cultural DVD’s watched in class, class discussions, speakers (if any), and the textbook/DVD’s. They then write a paper choosing a particular cultural aspect, synthesizing the information of the past four semesters, discussing the similarities, differences and overall insights between that piece of French culture and any related US culture.
