

<p style="text-align: center;">Course Outcomes Guide Fall 2011</p>
--

Course/Program Title: MAP 110 Introduction to Health Science Professions

Date: 5/11/11

Course/Program Team: Melanie Rowland, Dawn Nally, Karen Paolini

Expected Learning Outcomes:

- Provide appropriate patient care with respect for diverse cultures, values and beliefs.
- Competently perform routine medical assisting procedures.
- Utilize appropriate standard precautions.
- Communicate effectively with staff and patients.
- Make critical decisions appropriate for the medical assistant.
- Perform as an effective team member.
- Practice within the ethical and legal framework of the profession.

Assessment

Final Exam with twenty common questions to appear on the Final Exam of all sections

Validation

Completion of course with an average grade of 75% or higher.
Common exam question accuracy rate of 75% or higher

Results

91% (51/56 students) completed the course with a grade of 75% or higher
9% (5/56 students) completed the course below 75%; of these, 3 were “walk away” F grades. Students were encouraged to withdraw from the course but did not.

91% (961/1060 questions) accuracy rate for the common final exam questions

Follow-up

The number of successful students is an 11% improvement over the Spring 2011 semester. Homework completion (made more accessible to all students for all sections by including in Moodle), and encouragement of students to complete their projects contributed to this increase.

Students who stop attending will be encouraged to withdraw to avoid a failing grade.

Budget Justification
