

MSDNAA Software Center

Windows 7 Now Available!

Congratulations! As a student in a **Technology and Computer Studies** division class, you are benefiting from an opportunity to receive low-cost or no-cost Microsoft application and operating system software. TCS has partnered with the **Microsoft Software Developers Network Academic Alliance** to provide the software to credit students for use in course work or personal, non-commercial use. The software is fully functional and is not a trial version of the application.

How do I request a copy of the software?

- You will receive an e-mail notification to your student.hagerstowncc.edu e-mail address **after the add/drop date** and your MSDN e-store account has been activated.
- Once your account is active, you will be able to login at the link below.
http://msdn07.e-academy.com/elms/Storefront/Home.aspx?campus=hc_tech

How will I get my copy of the software?

- From the e-store, you can apply for your copy of select software packages. You will have two options for receiving the product.
 - The first is **CD Media Sales** which includes a small fee for original copies of software direct from Microsoft.
 - The second is the Secure Download. The Secure Download Manager (SDM) is a program for downloading files securely from your WebStore. When you download software from a WebStore that uses the SDM, you will be prompted to download and install the SDM to your computer.

How long will the “store” be open for software acquisition?

- You will be able to apply for the software online through the end of the semester.

How long can I use the software?

- The software will be licensed to you and can continue to be used for personal, non-commercial purposes even after you have finished taking classes at HCC.

How can I get a copy for my friend?

- All credit students enrolled in at least one TCS division class during the semester will be eligible to acquire products through the e-store. Only one copy is provided per eligible student. **Students not enrolled in a TCS division course are not eligible.**
