

Course Outcomes Guide

Course Title: IST 156 CCNA2: Router Fundamentals

Course Instructor(s): Jack Drooger

Programs: IST Networking Track I, IST Networking Track II

Expected Learning Outcomes

- Think critically
- Communicate effectively with both verbal and written forms
- Administer a network infrastructure
- Troubleshoot problems in an existing network environment
- Evaluate and implement new and future technologies into current system

Assessment (How do students demonstrate achievement of these outcomes?)

Satisfactory scores on exams and projects.

Satisfactory scores on exams modeled after industry standard certification exams. Models are developed from the following certification exams: Cisco Academy CCNA.

Completion of hands-on lab assignments created by Cisco Academy using Cisco routers and switches.

Validation (What methods are used to validate your assessment?)

1. Approval of Information Systems Technology Advisory Council
2. Tests comparable to Industry Standard Certification Exams.
3. Faculty Review
4. Cisco Academy assessment

Results (What do the data show?)

100% of students completing course requirements successfully complete coursework

Course Outcomes Guide

IST 156 is one of a set of four courses created by Cisco Academy that map to the Cisco CCNA certification. Curriculum and assignments are updated by the Cisco Academy in an on-going basis.

Follow-up (How have you used the data to improve student learning?)

Curriculum is frequently updated to map to current objectives of the Cisco Certified Network Associate certification.

Budget Justification

(What resources are necessary to improve student learning?)

PC lab hardware; projection unit, cabling, tools, printers, PCs, servers
Cisco routers and switchers.
