

Course Outcomes Assessment

Course Title: EMS 210 Medical Emergencies II

Program Team: Devin Buries

Expected Learning Outcomes:

- Demonstrate understanding of basic medical theory behind various disease process affecting neurological, environmental, genitourinary, obstetric, gynecologic, and behavioral patients.
- Apply principles of assessment to patients with various medical complaints.
- Identify and perform the correct treatment protocol based on local and national standards to patients with various medical complaints.

Assessment (How do or will students demonstrate achievement of each outcome?)

Assessment Testing	Pass/Fail
Quizzes	= 40%
Participation/Attendance	= 10%
Terminal Final Exam	= 50%

Validation (What methods have you used or will you use to validate your assessment?)

Students must pass each course with a 70% or greater, receive satisfactory marks in laboratory/clinical skills and affective domain in order to continue with program.

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

Assessment is planned to commence in Fall of 2012.

Follow-up (How have you used or how will you use the data to improve student learning?)

Evaluation of exam scores and NREMT certification results will be used to evaluate outcomes success and the need for course revisions and/or additional resources.

Budget Justification (What resources are necessary to improve student learning?)

To be determined in Spring of 2013.
