Course Outcomes Assessment

Course Title: EMS 140 Introduction to Advanced Life Support

Program Team: Devin Buries

Expected Learning Outcomes:
- Demonstrate safe and effective use of equipment and resources
- Perform patient assessments and treatment skills with attention to detail and safety.

Assessment (How do or will students demonstrate achievement of each outcome?)
- Web Participation = 30%
- Midterm Exam = 30%
- Attendance = 10%
- Final Exam = 30%

Validation (What methods have you used or will you use to validate your assessment?)

Students entering the paramedic program will be tracked for completion of EMS 140. Outcomes of these students will be compared to paramedic program students who did not take EMS 140.

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

Assessment is planned to commence in Summer of 2013. Aren’t we offering this in the summer?

Follow-up (How have you used or how will you use the data to improve student learning?)

Evaluation of exam scores and NREMT certification results will be used to evaluate outcomes success and the need for additional resources.

Budget Justification (What resources are necessary to improve student learning?)

To be determined in Summer of 2013.
