## Emergency Preparedness Training *for Child Care Providers*

This training is designed for child care center staff, family child care providers, and informal providers. Successful completion requires completion of a written emergency plan for center room, program, family care program or informal program. The trainer will present the material as if working with the staff of a mixed age child care center room. Child Care Center Directors can expand the plan for all rooms in their center, and Family Child Care Providers and Informal Providers can adapt the materials based upon the enrollment of their programs. During the second part of the training, participants will receive a planning form that will be specific to the type of program that they operate. Students will receive 3 hours of CE in Professionalism and 3 hours of CE in health and safety.
