STEMM Technical Middle College

Dear Parent,

As you may already be aware, WCPS and HCC have established a new STEMM (science, technology, engineering, math, medical) Technical Middle College which allows college-ready high school students the opportunity to earn college credits and credentials while completing their high school diplomas. You are receiving this packet of information because your son or daughter has been identified as a high-performing student who may want to consider this important educational option.

Please review the enclosed materials and contact your high school principal if you are interested in pursuing this opportunity or learning more.

Sincerely,

Teresa L. Thorn, MA
Middle College Coordinator
STEMM Technical Middle College
240-500-2483

Stay close. Go far.
