

STEMM Technical Middle College – Tuition Rates

Tuition is based on HCC's 2013-2014 tuition rate of \$107 per credit hour for Washington County residents. Tuition, registration fees, and general college fees may increase with future semesters.

For the first four classes, each student will receive the equivalent of a 50% tuition discount.

- Students will normally take 14 – 16 credits for the first semester
- The cost for the first semester will range from approximately \$1,050 – \$1,250.

After the first four classes, students receive a 10% tuition discount.

Total cost of a degree program based on the current tuition rate of \$107 per credit hour:

- A student will complete 60 -70 credits in the program.
- **Total cost of the 60 - 70 credit AS/AAS degree would be \$6,000 - \$7,300 (lab fees may apply)**

Students who have already completed courses at HCC will have their first semester tuition adjusted. The 50% tuition discount only applies to the first four classes. Classes already completed count in that number.
