

Plant Parts!

Let's get a close up look at some plants and their parts.

We will use a hand lens and a microscope.

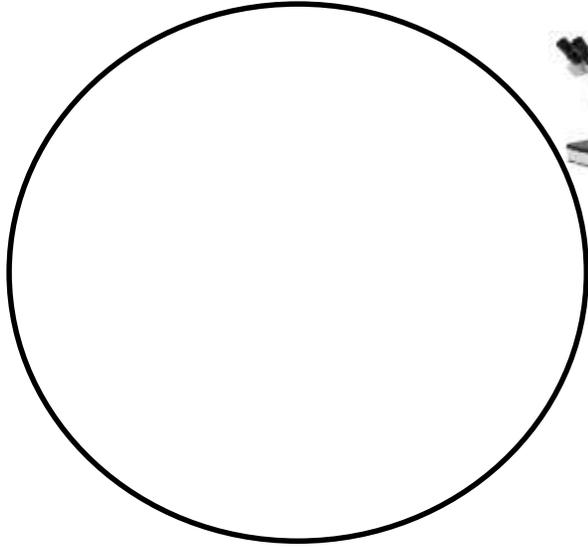

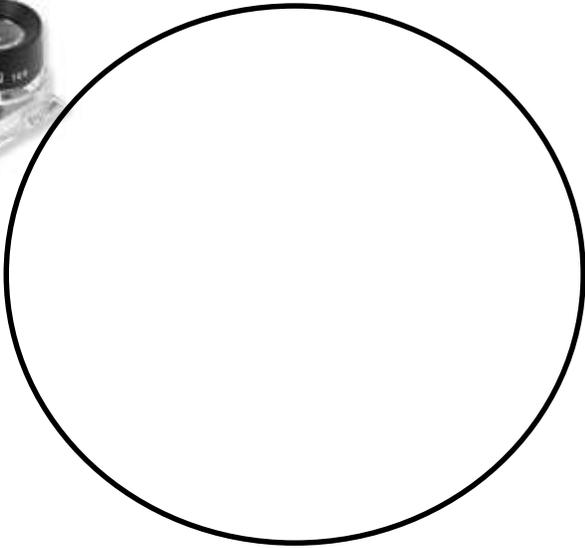

Draw your plant:

Look at the **seeds** of the plant and draw what you see.

What I see with the hand lens:

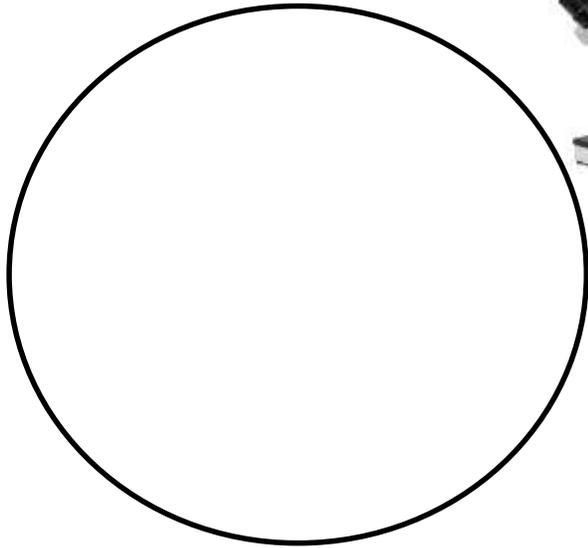

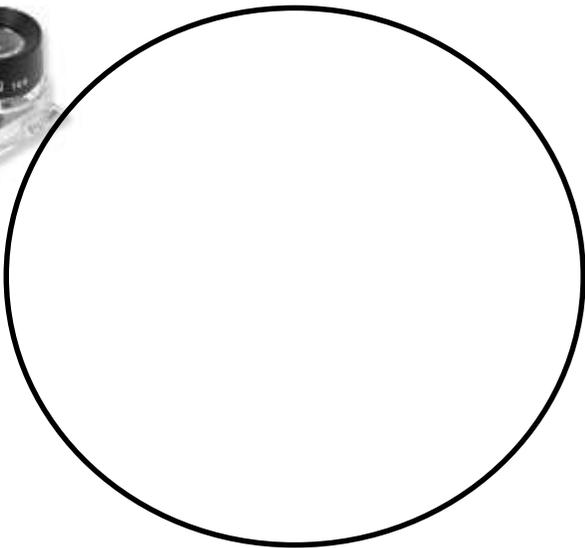

What I see with the microscope:

Now, look another part of the plant and draw what you see. Which part? _____

What I see with the hand lens:

What I see with the microscope:

Let's look at some flowers. Draw a flower using your eye, a hand lens, or a microscope.
