

Smoking Guidelines

Effective immediately

Hagerstown Community College has established new smoking guidelines. Smoking in front of the building entrances is no longer allowed, however, it is permitted in parking lots and other designated areas. There are 22 designated smoking locations on campus, marked by smoking receptacles and signage.

The recommendations are based on the philosophy of promoting healthy habits and environments among students and employees, without denying smokers the option to continue smoking in restricted areas on campus.

Thank you for your cooperation!
