Directions: Please complete this form to document your progress toward improving student learning. For each item, indicate your progress and your anticipated next steps. Thank you!

Course/Program Title: ADJ - 204 – Criminal Investigation
Date: Fall/Spring/Summer 2014
Course/Program Team: Meredith Dominick and Robert Bauer

Expected Learning Outcomes

1. **Identify and briefly explain the seven (7) fundamental steps of a preliminary investigation after a crime has been reported or observed.**

Assessment (How do or will students demonstrate achievement of each outcome?)

    Outcomes are assessed through quizzes and exams.

Validation (What methods have you used or will you use to validate your assessment?)

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

This course has undergone radical changes to include a new text book, new faculty both full time and adjunct. This course is currently being reevaluated in its entirety for assessment, validation, results and follow up. The updated and more current textbook alone is going to improve student learning, however results are not known at this time. Updated tools are being put into place.

Follow-up (How have you used or how will you use the data to improve student learning?)

Budget Justification: (What resources are necessary to improve student learning?)
    Nothing additional needed at this point.
