

Course (or Program) Outcome Guides

Directions: Please complete this form to document your progress toward improving student learning. For each item, indicate your progress and your anticipated next steps. Thank you!

Course/Program Title: Nur 226 Group A & B Spring 2014

Course/Program Team: L. Drury/L. Manilla

Expected Learning Outcomes See attached outcomes

Assessment (How do or will students demonstrate achievement of each outcome?)

1. 75% or higher scores on final Exam
2. 75% or higher grade on research paper assignment
3. 100% of students will achieve 117 or greater points on final clinical evaluation
4. 90% or higher score on calculation exam.
5. 100% of students will achieve level 1-2 on the ATI assessment

Validation (What methods have you used or will you use to validate your assessment?)

1. Final exam
2. Research paper
3. Final clinical evaluation
4. 100% of students will pass the calculation exam with 90% or better
5. ATI testing

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

1. 100% of all students passed the final exam
2. 100% of the students achieved a 75% or greater score on the research paper.
3. 100 students achieved greater than 75% average of all exams
4. 100% of students achieved greater than 117 points on Final evaluation
100% All students passed the calculation exam 5 14% received a level 3, 55.8 % students passed with a level 2, 27.9% had a level 1 and 1 student or 2.3% had a below level one score.

Follow-up (How have you used or how will you use the data to improve student learning?)

More students receiving level 2 or 3 status . I am utilizing all life scenarios within ATI and also a portion of the student's grade in this class is the proctored ATI . Looking at scores on ATI pharmacology down – faculty has agreed to change the pharmacology course back to first semester to give students earlier exposure .

Budget Justification

(What resources are necessary to improve student learning?)

Continued use of ATI which has proven to be a great tool to predict success in NCLEX..
