## HCC is a great choice in higher education

- **Affordable Tuition** – Students at HCC save an average of \$20,000 on the first two years of college.
- **Quality Instruction** – Most HCC faculty have advanced degrees and training or industry experience in their fields of expertise.
- **Career-Focused and Transferable Programs** – HCC prepares students for careers that are in demand, through degrees, certificates, and letters of recognition, as well as transfer to four-year schools.
- **Credit for Prior Learning** – Students can earn credits for prior traditional and nontraditional education (military training, standardized exams, and prior learning assessment).
- **MORE Online Programs and Courses** – HCC is constantly adding more online classes and now offers several degree and certificate programs that can be finished completely online. (Look for the computer icon by online courses and programs.)
- **NEW Evening Course Packages** – Many evening courses are now scheduled in such a way that students can take multiple courses each semester by attending class just one night a week.
- **State-of-the-Art Facilities** – HCC's new Learning Support Center, Behavioral Sciences and Humanities Building, STEM Building, and Kepler Performing and Visual Arts Education Center complete the new Arts and Sciences Complex.
