5. 100% of the final clinical evaluations were noted to be passing.
- 6 100% of the students received higher than 90% on the Community health project.
- 7 100 % of the students received greater than 75% on the OR report.

Follow-up (How have you used or how will you use the data to improve student learning?)

The Pharm course director has added in mandatory ATI exercises to increase success in the Pharm ATI proctored test. Note students results on comp predictor did not validate such poor results in pharmacology. Also a look at the bench marks and any consistent lower areas maybe also setting goal for 80% of students will gain a level 2 or higher.

ATI – I will continue utilizing both the focus tools with regards to the system taught in Med - surg 2 and also the life scenarios.

Review specifics in the ATI reports of students learning needs and increase information and critical thinking exercises r/t these needs.

Budget Justification

(What resources are necessary to improve student learning?)

The ATI resources continue to be a great assessment tool for students needs as well as a pre-nclx tool to ready students for success in the NCLEX.
