Follow-up:

Due to changes made for the 2014-15 class, all course outcomes were met for DEN120. This course was changed to a hybrid class and speakers and individual remediation was implemented for those who were identified.

For the 2015-2016 class I will continue with the course as hybrid and implement more speakers and real life scenarios into the class meeting times.

Budget Justification:

Adequate instructor resources will help me meet my course outcome goals.

Instruments for the Endodontic procedures to show the students will be very helpful.

Guest speakers and mock demonstrations of procedures will help me meet my outcome goals.
