

Course Outcome Guides

Course/Program Title: Pharmacology for Nursing Practice

Course/Program Team: Nur 224 Summer 2015

Expected Learning Outcomes: Refer to Course Syllabus

Assessment (How do or will students demonstrate achievement of each outcome?)

Four unit exams, online quizzes, and homework are used to assess classroom performance

Validation (What methods have you used or will you use to validate your assessment?)

ATI testing, Moodle quiz results, exam average of 75 % or greater.

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

Section F-01 totaled 56 students who successfully completed the course 8 A's, 43 B's, 5 C's, 0 D's, 0 F. Exam average was 86.83% with all students earning a 75% or higher on their exams.

Section F-02 totaled 41 students successfully completed the course. 2 A's, 31 B's, 8 C's, 1 D's, 1 F. Exam average was 82.89% with all students earning a 75% or higher on their exams. One student did not withdraw from the class that resulted in the F and one student received a 74.33 which is a failing grade in pharmacology program

Students will be taking the ATI Proficiency Test in October and again in December to evaluate retention and success.

Follow-up (How have you used or how will you use the data to improve student learning?)

In order to facilitate student learning, I have adjusted the course schedule to facilitate focusing on the classification of drugs, their generic names (which is what NCLEX focuses on) and methods in which to remember the classifications.

Budget Justification

Currently there are no additional resources required.
