

Course Outcomes Guide

Directions: Please complete this form to document your progress toward improving student learning. For each item, indicate your progress and your anticipated next steps. Thank you!

Program Title: NUR 116/117

Date: 12/13/2016

Program Team: Nursing

Expected Learning Outcomes: See Course Syllabus

Assessment: See Course Syllabus

Validation: See Course Syllabus

Results:

Fifty four students began the course.

Two students withdrew the first week of class, one due to personal reasons, and the other due to a change of major. Seven students withdrew mid-semester for a variety of personal and academic issues. These students did not take the ATI Fundamentals competency.

***** failed to achieve a 75% on the exam average, therefore failing the course. Five of these students received a Level 1 on the ATI Competency exam, and one received below Level 1. Of the remaining students, one received a Level 3, eleven received a level 2, and 16 received a level 1.

There were nine students in the skills competency, and two were unsuccessful, thus failing the course.

There were no students unsuccessful in the course due to attendance issues.

Twenty-nine students (65.9 % of those starting NUR 116/117) successfully completed the Foundations of Nursing course. This is a decrease from Fall, 2015.

32.5% percent achieved at Level 2 or above on the ATI Fundamentals Comprehensive Exam. This is a slight from Spring 2016. 44.1% percent scored a Level 1 and 23.2% scored below a Level 1.

77.7% of the students who took the Dosage and Calculation Math Competency test passed on the first attempt. This was a slight decrease from those who passed on the first attempt

in the Spring of 2016. All students (100%) passed on the second attempt after advisement and remediation.

Follow-up:

Faculty, and Student Support Specialist will continue to attend the advisement and orientation days to introduce resources available to students for success.

BSN cohort students (and others) will continue to use Carson Dorsey and Dawn Drooger, and the resources in the satellite lab.

Faculty will continue to invite and encourage students who do not meet the 75% exam benchmark for counsel, advisement, and development of remediation plan for success.

Faculty and student advisors (Christa Rice and Courtney Hart) will continue to meet and guide students throughout the semester.

ATI resources will continue to be a required component of the course.

ATI resources will continue to be incorporated in remediation plans for at-risk students.

Students who achieved a Level 1 or below, on the ATI Fundamental Competency Exam, met with Michele Blash for directions regarding remediation.

Faculty will continue review course content and make adjustments as needed.
