Course/Program Title: ART – 222 Sculpture II

Date: 5/6/16

Course/Program Team: Jeffrey Smith

Expected Learning Outcomes:

The successful student will develop a visual vocabulary and an understanding of sculpture that will be demonstrated by their ability to:

1. Student recognizes and applies the fundamental elements of art in visual assignments.
2. Student uses proper language, tools and techniques of the medium in visual assignments.
3. Student recognizes and differentiates the styles and techniques of various artists in the medium
4. Student experiences creative challenges that develop critical thinking and problem solving in visual assignments .

Assessment –

1. Students create projects that challenge them with design, technique, craftsmanship, content and fulfillment of the project objective
2. Students are tasked with at least one written exam or term paper evaluates the students understanding of proper terms and techniques and concepts of the medium
3. Students demonstrate analysis and critical ability in regular group and individual critiques
4. An end of year Art exhibit for all students requires students to complete and present their works incorporating professional standards.

Validation

1. Instructor evaluates each project with a standardized rubric that scores design, technique, craftsmanship, content and fulfillment of the project objective (SLO 1, 2 & 3) **Grading Rubric Attached**
2. Conference between the instructor and the Department lead faculty are ongoing to determine success of assignments and students' progress **Studio Art Rubric attached**
3. Instructor assesses student's understanding of creative concepts and assesses technical ability in regular individual or group critiques. **Critique Guide attached**
4. Final Critique including the work presented at the Student Art Exhibit assesses the students development and success.
 - a. This will ultimately result in the student's progression to the program's Capstone Portfolio Review.

Results

In SP13, FA13, FA 14 & SP14, the students who come to Portfolio Review are very prepared to discuss the design, craftsmanship and history of their work in Sculpture. Prof Smith has a very defined lecture series of artists in the medium and works with students throughout the semester to refine their work with a greater understanding of the movements in American Sculpture.

FA13:

- It would be helpful to have a standard list of assignments out of class to investigate priority artists and alternative techniques.

SP14 –

- Instructor drew up a list of challenging assignments that addressed the elemental and compositional instruction that is key to transfer

FA14:

- Students routinely fulfill the outcomes as assessed with the final critique and the Student Art Exhibit at a high rate of achievement.
- The quality of work from this Studio Course is consistently of very high quality

- “Success in a studio art course” cannot be standardized, and individual talent and development varies from student to student and as a class from term to term.
- Data collected is subjective, as the instructor’s evaluation includes variables such as innate ability and individual measures of development
- The Course Outcomes Assessment tool collects the data on the number of students who exhibit exposure to the elements and principles of design, techniques, history of the medium and being able to express an analysis of their own work.
 - It does not measure quality of work, or even how *well* they understand the concepts.
 - We use it and the results tell us we are doing well in instruction, student’s growth and the development of the program
- FA15 – Introduction of metal welding to Advanced Sculpture – outcomes of assignments has been impressive
- SP16 – Students complain of cramped quarters for expanding accomplishments in large scale sculpture – don’t have ability to address situation in present location. Would like to make use of Industrial Tech welding room, however, Course are always scheduled during the evenings the ART classes meet, and we do not have an alternative.

Budget Justification

- To increase attractiveness of the course to the students that are coming out of the Barbara Ingram School of the Fine Arts and area professionals
 - To that end we need to provide a first rate course with improvements to the facility we work in – we do not have adequate air circulation or exhaust, we are providing bare essentials as far as work space and it is crowded.
 - This course is not offered in the area and we draw from two counties.
- To increase the numbers of graduates by attracting them to HCC to get an AA degree and more importantly transfer to one of our quality 4 year transfer schools

- Articulation agreement is being hammered out with Hood college, Shippensburg, Shepherd University to facilitate student transfer to these programs
- Heavy recruitment to the highschoools is underway with a focus on the above articulation

Follow-up

I have added additional sections of Art 122 and Art 222 to the program, to be offered each fall and each spring. In the past it has been Spring only.
FA 14 – these classes are filling regularly

Budget Justification

Professional development funds for full time faculty and stipends for adjuncts to attend department meetings and norming sessions.

Certainly studio supplies are a regular expense. As we continue to have growing numbers and demand for our classes, the college needs to consider adding full-time faculty in the visual arts.

There is no reason why HCC should have less than a superior art department in the state of Maryland and in the surrounding areas.
