Course Outcomes Assessment

Course Title: EMS 121 Emergency Medical Technician, Part B
Date: Spring 2017
Program Team: Kris Martin/Beverly Witmer

Expected Learning Outcomes:
- Communicate effectively with patients in various "Special Populations".
- Demonstrate safe and effective application of all required EMT skills.
- Successfully integrate knowledge and skills in a prehospital setting while being monitored by a preceptor.

Assessment (How do or will students demonstrate achievement of each outcome?)
6 Chapter Exams, 1 Module Exams and 2 Skill exams. Students are required to pass each Module exam with a 70% or higher as well as PASSING on all skill exams

Validation (What methods have you used or will you use to validate your assessment?)
The exam questions currently are derived from the publisher (Pearson). The text book meets the National Standard Curriculum and using the publisher test banks allows for validity and consistency.
The Module Exams are proctored in the HCC Testing Center.
The Skill exams meet the MIEMSS criteria and MIEMSS Skill Evaluation forms are used.

Results (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)
5/5 students passed the Module and Skill exams and moved onto the MIEMSS Practical and Written Exam

Follow-up (How have you used or how will you use the data to improve student learning?)
Evaluation of exam scores and state certification results will be used to evaluate outcomes success and the need for additional resources.

Budget Justification (What resources are necessary to improve student learning?)
No additional resources were identified at this time.
