

Course Outcomes Guide

Program Title: NUR 116/117

Date: 05/01/2017

Program Team: Nursing

Expected Learning Outcomes: See Course Syllabus

Assessment: See Course Syllabus

Validation: See Course Syllabus

Results:

Fifty six students began the course.

Four students withdrew from the course. One due to a change of major, and three students withdrew early-mid-semester for academic reasons. One student was academically withdrawn from the course due to a clinical failure. These students did not take the ATI Fundamentals competency.

Ten failed to achieve a 75% on the exam average, therefore failing the course. Five of these students received a Level 1 on the ATI Competency exam, and five received Below Level 1. Of the remaining students who passed the course, one received a Level 3, nine received a Level 2, 22 received a Level 1, and 9 received Below Level 1.

There were five students in the skills competency, and one was unsuccessful, thus failing the course.

There were no students unsuccessful in the course due to attendance issues.

Forty students (71.42% of those starting NUR 116/117) successfully completed the Foundations of Nursing course. This is an increase of almost 6% from Fall, 2016.

19 % percent achieved at Level 2 or above on the ATI Fundamentals Comprehensive Exam. This is a decrease from Fall 2016. 52.9% percent scored a Level 1 and 27.4% scored below a Level 1. These are slightly lower than Fall 2016.

84.3% of the students who took the Dosage and Calculation Math Competency test passed on the first attempt. This was a 6.6% increase from those who passed on the first attempt in the Fall of 2016. All students (100%) passed on the second attempt after advisement and remediation.

Follow-up:

Faculty, and Student Support Specialist will continue to attend the advisement and orientation days to introduce resources available to students for success.

BSN cohort students (and others) will continue to use Carson Dorsey and Dawn Drooger, and the resources in the satellite lab.

Faculty will continue to invite and encourage students who do not meet the 75% exam benchmark for counsel, advisement, and development of remediation plan for success.

Faculty and student advisor, Christa Rice will continue to meet and guide students throughout the semester.

ATI resources will continue to be a required component of the course.

ATI resources will continue to be incorporated in remediation plans for at-risk students.

Students who achieved a Level 1 or below, on the ATI Fundamental Competency Exam, met with Michele Blash for directions regarding remediation.

Faculty will continue review course content and make adjustments as needed.
