COURSE: EMS 122 – Emergency Medical Technician – Practicum  1 Credits

INSTRUCTOR:  

SEMESTER/YEAR: SUMMER

COURSE DESCRIPTION: This course provides supervised clinical experience in the field setting for skills learned in EMS 120 and EMS 121. Course fee required. Total of 45 hours of clinical and in class seminar.

Textbook: none

STUDENT LEARNING OUTCOMES:

- Explain the roll of communications and medevac services in prehospital care.
- Demonstrate integrated knowledge in performing the duties of an EMT during prehospital internship.
- Demonstrates prehospital scenes management, using appropriate EMT techniques.
- Demonstrate proper techniques for lifting, moving, and immobilizing patients.
- Properly assess, treat, and transport a minimum of 10 patients with an approved EMS preceptor.

COURSE WORKLOAD: Each 1 credit course requires a total of 30 hours of instructional time/student work. The course will have 5 hours of instructional time and 20 hours will account for student work outside of instructional time. The average is 5 per week of student work.

ASSESSMENT PROCEDURES: The MIEMSS Internship Packet will include 10 patient assessment, treatment and transports, MSP Orientation, ECC Orientation, and 40 hours of Field Internship with an approved EMS preceptor.

EMT Internship Packet   =100%

The overall course grade for the course will be based on one (1) area:

EMT Internship Packet: The MIEMSS Internship Packet will include 10 patient assessment, 1 refusal, treatment and transports, MSP Orientation, ECC Orientation, and 40 hours of Field Internship with an approved EMS preceptor. The grade percentage will be based on completion by deadline, attendance at MSP and ECC orientations, and professionalism during Field Internship. If the Internship Packet is not done by deadline an automatic 10% grade deduction will be earned. Failure to attend the MSP or ECC Orientation may result in an incomplete for the course.

Validation (What methods have you used or will you use to validate your assessment?)
Students must pass each course with a 70% or greater, receive satisfactory marks in laboratory/clinical skills and affective domain in order to continue with program.

**Results** (What do your assessment data show? If you have not yet assessed student achievement of your learning outcomes, when is assessment planned?)

5/5 students completed the Practicum requirements.

**Follow-up** (How have you used or how will you use the data to improve student learning?)

Evaluation of exam scores and NREMT certification results will be used to evaluate outcomes success and the need for additional resources.

**Budget Justification** (What resources are necessary to improve student learning?)
