Assessment

Course completion: Number passing.

Course Outcomes: No outcomes were mapped to the course objectives with the exception of the clinical competencies.

Clinical Competencies (CO 2): Number passing with an average score of 75% or greater.

Validation

Course Completion:

Completion of course with an average grade of 75% or greater.

Course Outcomes:

75% of students will correctly answer final exam questions

75% of students will achieve an average score of 75% for clinical competencies
Results

Course Completion: (N=3/3)

100% (3/3) of the students completed course with a grade of 75% or greater 2 A’s, 1 B
0% (0/3) did not complete the course with a grade of 75% or greater

Course Outcomes: Clinical Competencies

100% (3/3 students) satisfactorily completed all laboratory competencies with a grade of 75% or greater

Course Outcomes:

CO1 Identify and apply the significance of respecting cultural, religious and age related values and beliefs. 82%
CO2 Demonstrate ability/competence while performing clinical skill set requirements. 99%
CO3 Utilize standard precautions 99%
CO4 Demonstrate the ability to apply oral, written and electronic communication for patient care and patient education 82%
CO5 Recognize normal and abnormal signs and symptoms 82%
CO6 Demonstrate knowledge of HIPAA and DEA compliance 82%

Follow-up

The course outcomes are favorable. The students prepared patient education brochures in class and also participated in several scenarios in which one student was the patient and the other the medical assistant. Study guides were also provided in this class for students to better prepare for quizzes and exams results. Additional work on documentation in the patient record will continue to be utilized, as well as normal/abnormal results. The class has been capped at 12 students to provide the instructor more one-on-one time with students.
