

Course Outcomes Assessment

Course/Program Title: DHY 111 Clinic II

Date: May 2, 2019

Course/Program Team: KelanieYordy RDH, BS, MEd

Expected Learning Outcomes:

- Demonstrate clinical dental hygiene skills and assessment procedures under self assessment and direct observation conditions.
- Apply comprehensive dental hygiene process of care strategies that incorporate assessment, planning, implementation for the child, adolescent, adult, geriatric, special needs and medically compromised patients.
- Demonstrate competence in assessing periodontal diseases and implementing non-surgical periodontal therapy treatment and disease prevention strategies.
- Apply critical thinking and problem solving skills in a variety of clinical situations.

- Create clinical patient assessment documents that adhere to legal and ethical standards.

Assessment: Assessments include weekly journaling (2.5% of overall grade), Disease Prevention Case Study (2.5% of overall grade), Clinical assessments (5% of overall grade), CA rotations (2.5% of overall grade), Radiographs (7.5% of overall grade), Clinical Patient Care (80% of overall grade). Students are required to achieve an overall grade of 80% or better on all components, as well as overall course grade of 80% or better.

Validation: This is a Clinical course, in which the course grade is determined by completion of all course assessments with a goal of 100% of students achieving an average of 80% or higher.

Results: These results are based, on one student who was enrolled in the course during the Spring, 2019 semester.

Assessments	Course Average
Journaling	96.44%
Radiographs	86.25%
Clinical Assessments	93.74%
CA Rotations	100%
Patient Clinical Care	92.07%
Disease Prevention Case Study	91%
Overall Course Total	92%

Follow-up: DHY 111 students continually improved their critical thinking which they applied to all aspects of patient clinical care. The students began refining their skills in assessment, planning, and implementation throughout the semester. Adjustments will continually be made to link the practical/clinical aspects of dental hygiene with direct patient care.

Budget Justification: No changes are needed at this point.
