**HCC Nursing Program Outcomes**

The mission, philosophy, and program outcomes of the HCC Nursing Programs were developed by the nursing faculty and include beliefs related to the concept of nursing, nursing education, the teaching/learning process, and the scope of practice for the Associate Degree and Practical Nursing graduates. The organizing framework and outcomes for the Nursing Programs were derived from the statement of philosophy for the Nursing Programs and the philosophy of nursing education. The Nursing Program

outcomes include the expected levels of achievement; and the statements of Nursing Program Competencies are used interchangeably with student learning outcomes.

**END OF PROGRAM STUDENT LEARNING OUTCOMES:**

Upon completion of the program Graduates of the Practical Nursing Program will be able to:

1. Use the nursing process to identify the interrelationship among the person, the environment, health, and the role of nursing. (1, 3)
2. Contribute to the development of the nursing plan of care using application of knowledge, judgment, principles of communication, specialized skills, creative problem solving, and critical thinking. (2, 3)
3. Practice within the legal and ethical framework of practical nursing (3, 5)
4. Manage and provide care within and across healthcare settings under supervision and according to the LPN scope of practice. (4, 6)

**Student Learning Outcomes for NUR 114:**

Upon completion of this course, the student will be able to:

1. Incorporate the nursing process to provide care to individuals with complex healthcare needs. (3)
2. Demonstrate safety measures when providing care to all individuals in various settings. (5, 6)
3. Integrate ethical and legal principles into the care of individuals with complex healthcare needs. (3, 5)
4. Demonstrate sensitivity to the individual and family in a stressful situation. (2, 3)

**QSEN Competencies**

1. Patient Centered Care
2. Teamwork & Collaboration
3. Evidence-based Practice
4. Quality Improvements
5. Safety
6. Informatics

**Student Learning Outcomes for Clinical:**

Upon completion of NUR114, the student will perform the following with supervision:

**Incorporate the nursing process to provide care to individuals with complex healthcare needs.**

- Identify appropriate areas of assessment.
- Perform basic inspection, palpation, and auscultation.
- Report deviations in a timely manner.
- Establish nursing diagnosis based on deviations identified.
- Integrate classroom and clinical lab learning into the care of individuals.
- Evaluate individual's response to nursing care.

**Demonstrate safety measures when providing care to all individuals in various settings.**

- Prepares adequately for clinical experience.
- Dressed in clean school uniform and required accessories.
- Displays principles of safety when providing care.
- Perform skills in accordance with criteria learned in skills lab, as indicated.
- Perform skills in accordance with criteria that follow the facility's policies and procedures.
- Completes established care requirements and communicates in a timely manner, interventions that cannot be completed.

**Integrate ethical and legal principles into the care of individuals with complex healthcare needs.**

- Adheres to the HIPPA guidelines.
- Identifies ethical and legal issues in practice.
- Maintains safe, ethical, and legal accountability of nursing practice in accord with Maryland Nurse Practice Act and the NAPNES Code of Ethics.

**Demonstrates sensitivity to the individual and family in a stressful situation.**

- Respects individual's choice in activities of daily living.
- Respects the individual's dignity & human worth.

**Begin to interact with the individual, family, and the healthcare team therapeutically.**

- Collaborates with staff in organizing individual's care.
- Reports to staff and instructor at end of clinical experience.
- Participates in morning report.
- Participates in individual care conferences.
- Participates in group therapy/activities.
- Documents accurately utilizing appropriate medical terminology.
- Adheres to HIPPA guidelines.

**Work together with the healthcare team in providing care to the individual.**

- Participate in individual care conferences.
- Participate in group therapy/activities.
- Collaborate to organize care with staff to plan for continuity of care.

**Adjust work plan to improve organizational skills and available resources.**

- Use time wisely.
- Complete care by the end of the assigned clinical experience.
- Minimizes use of unnecessary supplies.

**Explore opportunities to promote personal and career growth.**

- Attends educational conferences as available and arranged by the instructor.
- Participate in learning opportunities during clinical rotations.

**Demonstrate continuity of care for multiple individuals.**

- Organizes care with the facility team members.
- Verbalize plan of care in preconference to instructor & revise plan of care in post-conference.
- Reports to appropriate team member the care of the individual at the end of the clinical assignment.
- Begins to recognize self-evaluation and communicates learning needs to instructor.
- Assumes responsibility for own actions.
- Reports to clinical on time.
- Completes the clinical assignment.

**Total Hours of Coursework:**

To earn one academic credit at HCC, students are required to complete a minimum of 37.5 clock hours (45 fifty-minute “academic” hours) of coursework per semester. Those hours of coursework may be completed through a combination of hours within the classroom and hours outside the classroom. Certain courses may require more than the 37.5 minimum hours of coursework per credit.

For most classes, students should expect to do at least 2 hours of coursework outside of class for each hour of in-class coursework.

| Assessment                    | Clock Hours | Explanation   |
|-------------------------------|-------------|---|
| Lecture & exams               | 68          | In class instruction & completion of exams                          |
| Assigned readings & exam prep | 75          | Completion of readings & studying                                   |
| Projects                      | 7           | Case studies  |
| ATI assignments               | 38          | Online assignments to support concepts and topics taught in lecture |
| Clinical                      | 60          | On site providing patient care                                      |
| Lab                           | 16          | Learning & practicing skills  |
| Simulation                    | 6           | Opportunity to practice skills in a real life scenario              |
| <b>Total</b>                  | <b>270</b>  |   |

**Services for Students with Disabilities:** Students may receive reasonable accommodations if they have a diagnosed disability and present appropriate documentation. Students seeking accommodations are required to contact the Disability

Support Services (DDS) office as early as possible. Student may contact a DSS staff member for an appointment at [dss@hagerstowncc.edu](mailto:dss@hagerstowncc.edu) or at 240-500-2530.
