2 Credits
SPRING 2019
January 7 through April 29, 2019
Hybrid

Instructor Information

Course Description
Students will install, customize and maintain server-based open-source content management systems including blogs, wikis, and custom content types. This is the capstone class for the WEB program and students will participate in a group service learning project as well as create an online portfolio and resume site. Course fee required. Prerequisite: WEB 110, WEB 210 and WEB 215 or consent of TCS Division. Semesters offered: Spring. 2 Credits.

Textbook and Course Materials

Student Learning Outcomes
• Students will be able to install a base Drupal environment from start to finish
• Students will be able to analyze and select open source modules appropriate for a specific solution.
• Students will demonstrate an understanding of web based server environments.
• From a set of customer specifications, students will be able to analyze and create unique solutions using CMS principles.
• Students will be able to decipher customer requests into actionable tools and content manageable web components.

Definition of Credit Hour: Classroom Courses
To earn one academic credit at HCC, students are required to complete a minimum of 37.5 clock hours (45 fifty-minute academic hours) of coursework per semester. Those hours of coursework may be completed through a combination of hours in the classroom and hours outside the classroom. Certain courses may require more than the 37.5 minimum hours of coursework per credit. For most classes, students should expect to complete at least 2 hours of coursework outside of class for each hour of in-class coursework.
