FRANKLIN COUNTY TECHNICAL SCHOOL
ARTICULATION AGREEMENT

Introduction

General Requirements and Procedures

Faculty and staff from Franklin County Technical School and Hagerstown Community College have cooperatively developed course and program articulation requirements and procedures. In order to receive articulated credits, graduates of Franklin County Technical School must be enrolled at Hagerstown Community College as students in good standing, and meet course and program requirements as stated in this document. Additionally, students must submit an Articulation Certification form, signed by a high school program faculty member and guidance counselor. Forms are available at every high school, and at Hagerstown Community College. A list of specific procedures follows this Introduction.

Students awarded articulated credits under this agreement will not be charged tuition for these credits. Articulated credits are generally awarded within twelve months of high school graduation, although individual course and program requirements may vary.

If an HCC program or course that is part of the existing HCC/FCTS articulation agreement is terminated, students’ articulation status will be determined on an individual basis.

Transfer of Articulated Credit

While Hagerstown Community College maintains transfer agreements with many baccalaureate institutions, students should be aware that some institutions and programs might not accept college credits granted for high school work. Students should consult with their Hagerstown Community College advisor prior to transfer.

This articulation agreement will be reviewed annually and updated as necessary.
The purpose of this document is to outline responsibilities for ensuring that students earn college credit for coursework that meets requirements specified in the HCC/FCTS Articulation Agreement. Responsibilities are shared by FCTS, HCC, and students.
