Plant Parts!

Let’s get a close up look at some plants and their parts.

A. Can you name three parts of a plant?

_______________________  _______________________  _______________________

Ask a friend for help, if you need it.
1. Now, **draw** a plant and **label** these **three parts**:

---

B. Look at a seed with the hand lens and microscope.

Part 1: The seed. **Draw** and label what you see:

What I see with the hand lens:  What I see with the microscope:
C. Now pick another plant part. Which one did you pick?
   Part 2: ___________________. Draw and label what you see:

   What I see with the hand lens: ____________________________
   What I see with the microscope: __________________________

D. Now pick another plant part. Which one did you pick?
   Part 3: ___________________. Draw and label what you see:

   What I see with the hand lens: ____________________________
   What I see with the microscope: __________________________
E. What did you learn about the parts of a plant?

1. Describe two things that make the seed different from Part 2 and Part 3.
