

Academic Standards and Outcomes Assessment Committee
January 27, 2022
Meeting Minutes

Attendees: A. Auldridge, C. Baer, S. Cameron, C. Hawbecker, J. Luna, M. Martin, A. Miller, T. Nedimyer, Dr. Renninger, R. Rohan, Dr. Scheetz, J. Stonestreet

Excused: J. Suminski

Minutes submitted by T. Nedimyer

1. **Approval of Minutes from Last Meeting**

The October 28th ASOAC meeting minutes were approved as written.

2. **Open Issues**

a) Update on SLOA process

- Met/not met check boxes for success have now been added to the COG and POG fillable forms as suggested at the previous ASOAC meeting. Dr. Renninger also noted various training videos have been uploaded under SLOA tools on the outcomes assessment webpage.

3. **New Business**

a) Selection of Academic Programs

- The group discussed the idea of limiting the number of academic programs that a student can be active in at one time. M. Martin stated this issue was brought to light as academic advisors found advising students in multiple academic programs difficult to navigate. J. Stonestreet noted that she feels advising students in multiple programs is confusing for both faculty advisors and students. C. Baer stated that he believes the number of academic programs that a student can be active in at one time should be better managed, and noted an official policy should be developed. Dr. Renninger noted that she reviewed policies from other colleges on this topic, and shared them with the group. Dr. Renninger further stated that this topic will be discussed at Shared Governance, and if an official charge is brought forth, she will work with this committee on drafting an official policy.

Future Meetings: *February 24th @ 2:30pm*
