

**Academic Standards and Outcomes Assessment Committee
(ASOAC)**

Meeting Minutes

March 24, 2022 – 2:00pm - Zoom

Attendees: C. Baer, S. Cameron, C. Hawbecker, J. Luna, L. Renninger, R. Rohan, Dr. Scheetz, J. Stonestreet, M. Martin

Excused: A. Miller, A. Auldridge

Minutes submitted by L. Renninger

1. Approval of Minutes from Last Meeting

The February 24th ASOAC meeting minutes were approved as written.

2. Committee members presented findings on academic program policies from the MACC assignment list. L. Renninger created a chart summary with findings. R. Rohan suggested that if we create a policy that allows for only two active majors, AA.GST students should not double major in another program under the A.A. Degree (credential).
3. After reviewing the research findings, the committee decided to gather the following information for the next meeting:
 - a. Assessment from Mayme of the impact of end-dating programs in Datatel. Did this help cut down on the number of students who are active in multiple programs?
 - i. Specifically, Laura will ask.
 - b. A dataset showing the actual number of students in more than two active programs (including what the programs are).
 - i. Specifically, Laura will get this from Mayme or Stephny.
 - c. More information from some of the MACC schools in terms of their process and criteria for approving students in more active programs than their current policy limits. Who signs off on approvals to add additional

programs? What criteria do these persons use to make these decisions?
Has there been an impact on enrollment when active programs are limited?

- i. Specifically, Mike will contact CSM and Carroll; Laura will contact AACC. Follow-up with other schools is welcomed from anyone else who has time.

4. Adjournment

Future Meeting: April 28th, 2022
