

Practical Nursing

What is a practical nurse?

The practical nurse (LPN) performs bedside clinical care and is trained in the fundamentals of biological sciences. Courses include basic nursing care, behavioral sciences, and biological sciences. Critical thinking is stressed in all phases of the practical nursing program.

Individuals who excel in this program have excellent critical thinking skills, great attention to detail, and display both compassion and confidence in their work.

What do practical nurses do?

LPNs perform bedside nursing care in long-term care facilities, and often work as frontline managers in nursing homes and extended care facilities. The LPN works under the guidance of an RN, MD, DO, DDS, CRNA, NP, or certified Midwife to identify the nursing problems of a client and report these findings to the MD, RN, or the director of Nursing. The LPN can also administer medications, provide continuity care to the patients and residents, and is expected to reinforce teaching to clients in all areas. LPNs are encouraged to volunteer time at free clinics, the Red Cross, or other organizations of interest.

Where do practical nurses work?

LPNs work in nursing homes, physicians' offices, schools, social service agencies, private care, travel nursing agencies, and freestanding clinics such as urgent care facilities. An increasing number of home health and hospice agencies are using LPNs in many areas according to state regulations and Nurse Practice Acts.

Why should I choose HCC?

The Practical Nursing Program at HCC offers educational requirements that allow students to become an LPN in 16 months. The 16-month timeframe includes general education requirements as well as practical nursing courses. The program classes are designed to allow the student to work part-time or full-time, especially on the weekends. HCC's program is recognized and accredited by the Maryland Board of Nursing and the Accreditation Commission for Education in Nursing (ACEN).

This program is also designated as a Health Manpower Shortage Program; therefore, some residents of Maryland enrolled in this program of study on the first day of the term may be eligible for in-county tuition rates for courses required for program completion.

Are there any pre-admission requirements?

Students must complete the nationally normed test for nursing students known as the Test of Essential Academic Skills (TEAS). The TEAS is a scholastic aptitude assessment in the areas of math, reading, English, and science. Students will not be considered for admission to the program until they achieve the required scores on the TEAS. Applicants should consult the HCC website at www.hagerstowncc.edu/teas for specific information about the TEAS, including score requirements. This requirement should be completed prior to submission of the *Supplemental Application*, but no later than the application deadline of March 15.

What are the admission requirements?

Admission to HCC does not guarantee admission to the Division of Nursing. The requirements below must be completed and submitted to the Office of Admissions and

CAREER OUTLOOK

MEDIAN SALARY

\$48K

for Licensed Practical and Licensed Vocational Nurses

EMPLOYMENT

657,200 jobs in the U.S.
6% growth over next 10 years

Licensed practical and licensed vocational nurses held about 657,200 jobs in 2021. About 35 percent of LPNs worked in nursing care facilities, while 15 percent worked in hospitals, and another 12 percent in physicians' offices. Others worked for home healthcare services; employment services; residential care facilities; community care facilities for the elderly; outpatient care centers; and federal, state, and local government agencies.

Enrollment Management by the application deadline of March 15.

- All students planning on applying to the Practical Nursing Program must attend a Nursing Program Preview before the Supplemental Application deadline. Students who are transferring in who have completed a nursing class at another accredited college are exempt from this orientation.
- Submit a completed program application known as the *Supplemental Application for the Practical Nursing Program*. Students can find the supplemental application at www.hagerstowncc.edu/admissions/forms-documents.
- High school diploma or proof of GED completion with official transcripts must be submitted prior to application deadline.
- Official transcripts from all colleges attended (students taking classes at HCC do not need to submit an HCC transcript).
- Completion of BIO 203 and must be in progress of BIO 204 at the application deadline.
- Completion of any previously earned, required science credits within seven years prior to the application deadline.

- Completion of ENG 101 at the application deadline.
- Completion of PSY 101 at the application deadline.
- Completion or in progress of MAT 090 or MAT 095 at the application deadline.
- A grade of “C” or higher is required for all general education requirements
- A minimum cumulative grade point average for all college coursework of 2.0 on a 4.0 scale.
- Foreign educated students must have their college and high school transcripts evaluated by World Education Services (WES).
- A background check is required for all students entering the Practical Nursing Program.
- Submit TEAS scores to the Office of Admissions and Enrollment Management. Official TEAS scores are needed except for those taken in the HCC Testing Center.

Are there any disqualifying crimes for this major?

There is no specific list of disqualifying crimes for this profession. However, any felony conviction or drug-related or violent misdemeanor makes it exceedingly difficult to work in this field. Criminal history of any kind will likely result in a delayed licensing process and extra paperwork. Students with a criminal history who do choose to pursue a career in this field will be best-served by

a solid work history (post-conviction) and several professional and character references.

Additional Information

Additional information on program requirements including selection criteria, final acceptance, criminal background checks, drug screening, and transferring from another college or nursing program can be found at www.hagerstowncc.edu/nursing.

Technical Standards:

There are technical standards and skill requirements which students are expected to possess and demonstrate in order to be successful in this program. More information on these standards can be found at www.hagerstowncc.edu/nursing.
