RFB HCC24-002 for Retaining Walls Repair

Addendum 2, posted on March 28, 2024, consisting of questions received before the deadline and an update on the faux stone question asked in Addendum 1.

Questions & Answers:

Q1: Is there a specific MBE percentage that is required for this project?

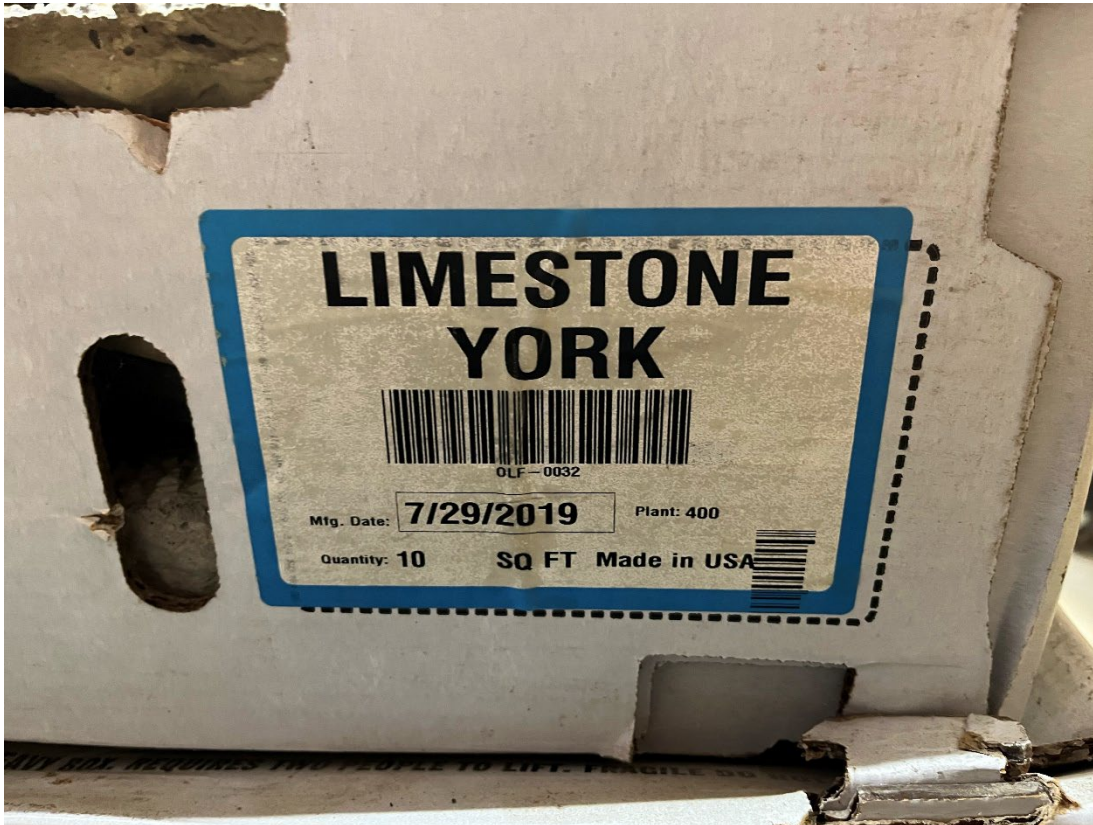

A1: The College always encourages MBE, however, there is not a specific goal for this project.

Faux Stone:

It is Elderado Stone, the style is “york limestone” and we have 4 boxes of new on site that can be used, as well as the existing stone that fell off, any additional would have to be purchased. The maintenance crew at HCC states that it may not have been properly installed the first time, so the whole wall may need checked out and reinforced.
