

# Radiography

## What does a radiographer do?

Radiographers use sophisticated x-ray equipment to image the structures of the body, as prescribed by the physician, to diagnose injury or disease. Their responsibilities require a knowledge of anatomy, physiology and pathology, patient positioning, radiographic technique, radiation safety, patient care and communication. Radiographers use critical-thinking to accommodate a variety of patient needs and imaging scenarios. More information is available at [www.arrt.org](http://www.arrt.org).

## What skills are needed to excel in this profession?

- Good critical thinking skills
- Good written and verbal communication skills
- The ability to work well with others and care for patients
- A professional attitude and appearance

Note to students: You are entering a profession that operates 24 hours a day, 7 days a week, and 365 days a year. Work shifts include day, evening, and night hours.

## Where do radiographers work?

Radiographers work primarily in hospitals but other employment opportunities include clinics, physician's offices, freestanding imaging centers, manufacturing plants, research centers, outpatient surgical centers, mobile imaging centers, veterinary offices and hospitals, and teleradiology services.

## Why should I choose HCC's Radiography Program?

- HCC's radiography program is nationally accredited by the Joint Review Committee on Education in Radiologic Technology
- Excellent pass rate on the American Registry of Radiologic Technologists (ARRT) national certification examination in radiography (five-year first time pass rate=90 percent)
- HCC offers the ability to complete advanced certifications in computed tomography (CT) imaging, magnetic resonance imaging (MRI), and a letter of recognition in mammography
- Imaging and simulation labs are well-equipped
- Clinical education is completed in state-of-the-art healthcare facilities offering a wide range of imaging services
- This program is also designated as a Health Manpower Shortage Program (Therefore, some residents of Maryland, enrolled in this program, may be eligible for in-county tuition rates for courses required for program completion.)

## Is HCC's Radiography Program accredited?

The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The program has maintained JRCERT accreditation since its first review in 1975 and is currently accredited. More information is available at [www.jrcert.org](http://www.jrcert.org).

## Am I eligible to sit for the national certification exam in radiography?

Students who successfully meet the American Registry of Radiologic Technologists ethics requirement and complete HCC's Radiography Program are eligible to sit for the ARRT certification examination. Information on the ethics requirement for ARRT certification can be found on the following website: [www.arrt.org](http://www.arrt.org). ARRT certification is required for employment.

## Are there advancement opportunities for a radiographer?

Radiographers enjoy a wide range of career advancement opportunities such as specialized imaging careers in computed tomography (CT), magnetic resonance imaging (MRI), mammography, diagnostic medical sonography, education, and management. HCC currently offers advanced certifications in CT, MRI and Mammography.

## Is state licensing required for radiographers?

Currently, there are licensing requirements for radiographers in approximately two-thirds of the states. Maryland, West Virginia, and Virginia require radiographers to have a license to practice.

## How do I apply to HCC?

Students applying to HCC for the first time can apply online or download and complete an application for admission. There is no fee to apply to HCC. You will need to submit official college transcripts from all colleges attended to the Office

## PROGRAM OPTIONS

 A.A.S. Degree, Radiography

## CAREER OUTLOOK

### MEDIAN SALARY

**\$67K**

for Radiologic and MRI Technologists

### EMPLOYMENT

264,000 jobs in U.S.  
6% growth in next ten years

(source: [www.bls.gov/ooh](http://www.bls.gov/ooh))

of Admissions and Enrollment Management. To find out more about the application process, go to [www.hagerstowncc.edu/admissions](http://www.hagerstowncc.edu/admissions).

Submission of the supplemental application for the radiography program is required to place your name on the applicant list for the program. To find the supplemental application, go to [www.hagerstowncc.edu/admissions/forms-documents](http://www.hagerstowncc.edu/admissions/forms-documents).

## What are the admission requirements for the radiography program?

Admission to HCC does not guarantee admission to the radiography program. The requirements listed below must be completed and submitted to the Office of Admissions and Enrollment Management by the application deadline of February 1.

- Submit a complete program application known as the Supplemental Application for the radiography program.
- Submit official transcripts from all colleges attended (students taking classes at HCC do not need to submit an HCC transcript).
- Submit official scores for the ACT® WorkKeys® National Career Readiness Assessments. The assessments measure foundational skills required for entry in the radiography program. For information on this test, visit <http://www.hagerstowncc.edu/docs/health-sciences-division/act-workkeys-ncr-testing-radiography>.
- Complete and submit a Radiography Observation Verification form which documents 8 hours of job shadowing in a hospital setting. Job shadowing experiences must be completed between June 15th and December 15th of the current application cycle. The Admissions Office will not retain submitted forms for successive application cycles.
- A minimum of 16 general education credits must be completed or in progress at the time of application deadline: ENG-101, MAT-114, BIO-116 or BIO 203 must be completed and BIO 204 must

be completed or in progress, PSY-101, Diversity, and Arts and Humanities credit.

The application deadline is February 1 each year with the accepted class beginning program courses in May. The radiography program is a selective admissions process and students are accepted based on a specific point system. Applicants are notified by letter as to acceptance or non-acceptance.

### What are the estimated costs for the radiography program?

A list of the estimated costs for the radiography program can be viewed at [www.hagerstowncc.edu/medical-imaging](http://www.hagerstowncc.edu/medical-imaging).

### What are the requirements and expectations for the clinical component?

Students accepted into the radiography program must satisfactorily complete the following: all requirements on the health form, drug screen, fingerprinting and background check, American Heart Association Healthcare Provider CPR, medical terminology, and documentation of computer literacy. Students enrolled in the Radiography Program are assigned to healthcare facilities within the tri-state region. Students are expected to abide by the rules and protocols of the College, program, and the facility, and are also expected to provide their own transportation to the facility. Clinical education assignments are completed on a semester basis and will include day, evening and weekend schedules between the hours of 6 a.m. and 9 p.m. Students are expected to be in proper uniform with appropriate identification during all clinical education assignments.

### What are the academic requirements for the radiography program?

Students are expected to achieve a minimum grade of 75 percent in each radiography course to progress to the next semester of the program. Additionally, students must achieve a 78 percent overall average on all exams. Misconduct in the clinical education site may result in loss of clinical placement and/or program dismissal. Failure to meet program, course, technical, health, and radiation standards may result in loss of clinical placement and/or program dismissal.

### How do I transfer credits from another school?

Applicants may transfer general education courses from other regionally accredited institutions. Official transcripts from all institutions attended should be sent directly to the Office of Admissions and Enrollment Management at HCC. Upon completion of a three-credit course at HCC, transfer credits become part of the student's official transcript at HCC.

Contact the Medical Imaging Programs Coordinator for more information.

### Technical Standards

There are technical standards and skill requirements which students are expected to possess and demonstrate in order to be successful in this program. Final acceptance into the Radiography program is contingent upon students meeting the program's technical standards which are evaluated at orientation. More information on these standards can be found at [www.hagerstowncc.edu/medical-imaging](http://www.hagerstowncc.edu/medical-imaging).

### Vaccine Requirements

Several immunizations are required as part of your health documentation, including: HEP B 3 vaccine series AND Positive immunity titer, Tetanus (Tdap) within the last 10 years, QuantiFERON®-TB, Varicella 2 vaccine series AND positive immunity titer, MMR 2 vaccine series AND positive immunity titer, the Flu vaccine (fall and spring), and the COVID-19 vaccine.

Since many individuals fail to maintain immunity over time, you may be required to repeat vaccination series/ receive a booster in order to demonstrate positive immunity. Positive immunity titers are required to proceed with Clinical or Externship rotations in all Health Sciences Programs. It is the student's responsibility to verify immunity prior to the start of the program and take the necessary steps to ensure positive immunity by the health documentation deadline provided to each cohort.

### Other Requirements

An American Heart Association (AHA) Basic Life Support is required for healthcare providers (the AHA version is required for your licensure exams).

### A.A.S. Degree

## Radiography (Three-Year Pathway)

### General Education Requirements 19-23 credits

#### Arts/Humanities

Select Arts/Humanities course from approved  
General Education course list..... 3

#### Behavioral/Social Sciences

PSY 101 General Psychology..... 3

#### Biological/Physical Science

BIO 116 Human Anatomy and Physiology for Allied Health..... 4

OR

BIO 203 Human Anatomy & Physiology I..... 4

AND

BIO 204 Human Anatomy and Physiology II.... 4

*\*Students who plan to transfer should discuss science requirements with their advisor*

#### Diversity

Select Diversity course from approved General  
Education course list ..... 3

#### English

ENG 101 English Composition ..... 3

OR

ENG 101E English Composition for English  
Language Learners ..... 3

*\*A minimum grade of "C" or better is required for ENG 101 and ENG 101E*

#### Mathematics

MAT 114 Introduction to Applied Algebra ..... 3

### Radiography Course Sequence

#### Program Requirements 49 credits

##### First Year – Summer Semester I

RAD 101 Radiography I..... 2

RAD 103 Radiographic Positioning I ..... 3

RAD 109 Patient Care for Radiographers..... 3

##### First Year – Fall Semester I

HIM 102 Medical Terminology ..... 3

RAD 102 Radiography II..... 2

RAD 104 Radiographic Positioning II ..... 3

RAD 106C Clinical Technique I..... 2

##### First Year – Spring Semester I

RAD 105 Radiographic Positioning III..... 3

RAD 108C Clinical Technique II..... 2

PHY 106 Radiological Physics Theory ..... 3

### Second Year – Summer Semester II

RAD 200C Clinical Practicum..... 4

### Second Year – Fall Semester II

RAD 202 Advanced Medical Imaging

Concepts..... 3

RAD 205C Clinical Technique III..... 4

RAD 215 Pathology for Imaging Sciences ..... 3

### Second Year – Spring Semester II

RAD 201 Radiographic Imaging Concepts ..... 3

RAD 211C Clinical Technique IV ..... 4

BIO 202 Radiation Biology..... 2

**Degree Requirement.....68**

### A.A.S. Degree

## Radiography (Two-Year Pathway)

### First Year – Summer Semester I

BIO 116 Human Anatomy and Physiology for

Allied Health..... 4

RAD 101 Radiography I..... 2

RAD 103 Radiographic Positioning I ..... 3

RAD 109 Patient Care for Radiographers..... 3

*\*Students who plan to transfer should discuss science requirements with their advisor*

### First Year – Fall Semester I

RAD 102 Radiography II..... 2

RAD 104 Radiographic Positioning II ..... 3
