INTRODUCTION

The safety and security of the college community are of vital concern to Hagerstown Community College. Hagerstown Community College's Annual Security Report (ASR) is prepared and distributed in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act), as amended by the Higher Education Opportunity Act (HEOA), and all implementing regulations issued by the US Department of Education (34 C.F.R. Part 668.46). The report reflects policies and services designed to provide a safe environment and set a standard of conduct which is most conducive for a safe college campus.

The HCC Police Department composes the Annual Security Report. This report contains three calendar years of reported crimes that occurred on campus, public area contiguous to the campus, or property owned, leased, or controlled by Hagerstown Community College. The statistics include information reported to Campus Security Authorities (CSA) and crimes reported to outside law enforcement agencies (Washington County Sheriff's Office). Each year before October 1, all employees and members of the college community are notified by email that the Annual Security Report has been posted on the college's website and can be accessed at the following link: <https://www.hagerstowncc.edu/campus-police-annual-security-report>

Hard copies of this report will be provided upon request by contacting the HCC Police office at 240-500-2308.

Hagerstown Community College Police & Security

HCC POLICE AUTHORITY

The Hagerstown Community College Police are sworn law enforcement officers that have authority granted under the Maryland Code, Education Article 16-707.1. HCC Police Officers may exercise powers of a police officer on the property that is owned, leased, operated by, or under the control of the Hagerstown Community College. HCC Police are stationed on the main campus located at 11400 Robinwood Drive, Hagerstown, MD 21742 in the Learning Resource Building (LRC) room 115. HCC Police officers are armed and have sworn law enforcement powers on the main campus of Hagerstown Community College. Maryland House Bill 478 was approved in May 2025 and signed by the Governor July 1, 2025. This House Bill recognizes the state-wide jurisdiction of the HCC Police officers and allows them to respond off campus in a life-threatening emergency.

HCC Police have a professional relationship with the Washington County Sheriff's Office and work together to address problems and provide a safe and secure community. HCC has two satellite locations, one located at the Valley Mall and the commercial truck driving range located at 14547 Industry Lane in Hagerstown, Maryland. The Washington County Sheriff's Office provides law enforcement services at both Off-Campus locations.

CAMPUS SECURITY OFFICERS

Hagerstown Community College utilizes unarmed security officers to supplement the HCC Police. These security officers do not possess arrest powers and are not authorized to conduct traffic enforcement. HCC Security Officers are dressed in tan colored security shirts and black BDU style pants. Security officers patrol campus and are trained to observe and report incidents. If an HCC Police Officer is not available, the security officer will contact the Washington County Sheriff's Office. HCC Security Officers are considered a Campus Security Authority and are trained to document and report incidents, as required under the Clery Act. HCC Security Officers can be reached by calling 240-500-2308 or by stopping by the office at LRC 115.

TRAINING

HCC Police Officers conduct annual In-Service training that meets the standards set forth by the Maryland Police & Corrections Training Commission (MPCTC). In addition, HCC Police officers complete annual firearms training that meets the MPCTC standards. In 2024 HCC Police Officers completed approximately 30 hours of In-Service Training. HCC Police officers are encouraged to complete additional training courses and attend seminars related to the field of policing at institutions of higher education. HCC Police are trained Campus Safety Authority reporters and follow all Clery based regulations.

POLICE & SECURITY SERVICES

The HCC Police Department is comprised of sworn police officers and part-time security officers. HCC Police officers are certified by the Maryland Police & Corrections Training Commission (MPCTC). HCC Police officers can enforce Maryland traffic laws and make criminal arrests on the main campus of HCC. The police officers on campus carry police radios and are connected to the Washington County Emergency Communication Center. In the event of an emergency, call 911 and an HCC Police officer and/or a deputy from the Washington County Sheriff's Office, will be dispatched to your location. The HCC Police and Security Officers patrol the campus, investigate incidents, enforce all college traffic and parking regulations, and provide student escorts when needed. HCC Police and security hours of operation are Monday through Friday 7:00 am to 10:00 pm and Saturdays from 7:00 am to 5:00 pm. To reach an officer in the event of a non-emergency, call 240-500-2308, or dial 2308 from any college phone. There are red phones located in most campus buildings. You can use these phones to dial 2308 or 911 to connect you with emergency services. The HCC Police Office is located in the LRC building, room 115. The security office phone number is 240-500-2312. The Chief of Police can be reached at 240-500-2501.

During off-hours, contact the Washington County Sheriff's Office non-emergency number 240-313-2100 or 911.

Other services provided by the police include, but are not limited to:

- Fire Prevention
- Emergency Operation Planning
- Crisis intervention
- Respond to medical emergencies to assist with contacting emergency medical services
- Security surveys
- Crime detection and prevention
- Criminal investigations
- Roving patrols
- Parking coordination for special groups
- Student escorts (when needed)
- Assist students, faculty and staff motorists with dead batteries or keys locked in their car, without charge.
(Note: This service is provided at the officer's discretion)

REPORTING A CRIME OR AN EMERGENCY

All students, employees and visitors of the college are encouraged to report crimes to the HCC Police Department. If you observe a crime in progress, call 911. The Washington County Emergency Communication Center has the ability to dispatch HCC Police, allied law enforcement agencies, and/or fire & EMS to the college campus if needed. If you are the victim of a crime, you can report the crime to the HCC Police Department. HCC Police officers are trained to investigate and document criminal acts that occur on campus. Special consideration will be given to victims of a crime and allow for anonymous or confidential reporting. HCC Police officers understand that a victim of a sexual assault (misconduct/assault/harassment) may want to report the incident but remain anonymous (Jane Doe Reporting). In this case, HCC Police would contact the Washington County Sheriff's Office to assist with the investigation. Personal identifying information will not be published and only shared with college officials on a need-to-know basis.

TO REPORT A CRIME:

- Emergency and/or life threatening – Call 911
- Non-Emergency request for Police/Security 240-500-2308 or 2308 from any College phone. This phone number is forwarded to the on-duty officer's cellphone
- Email – Campopol@hagerstowncc.edu
- In person, HCC Police Office – Learning Resource Center (LRC) room 115 on HCC's main campus
- Red phones – there are red phones in most student-use buildings. These phones call directly to 240-500-2308

CAMPUS SECURITY AUTHORITY

Other than the HCC Police or Security Officers, a Campus Security Authority (CSA) is defined as an official with significant responsibility for students, campus activity, student discipline, control of college property or campus judicial. HCC recognizes the need to have non-law enforcement personnel assigned to the role of a CSA. Not everyone feels comfortable reporting crimes to police or security officers. HCC has designated positions that are responsible for collecting and reporting information on crimes that include: homicide, murder/non-negligent manslaughter, negligent manslaughter, sex offenses (rape, fondling, incest, and statutory rape), robbery, aggravated assault, burglary, motor vehicle theft/attempted theft, arson, liquor law violations, domestic violence, dating violence, stalking and other crimes manifesting hate or bias.

In 2020 the Chief of HCC Police was designated as the CSA coordinator at Hagerstown Community College. HCC has identified specific positions on campus and assigning those positions as CSAs. A Campus Security Authority Power Point training was developed in 2020 and was utilized to remotely train CSAs on campus. The training identified the roles and responsibilities of a CSA and helped prepare CSAs for reporting incidents. In 2021, HCC identified individual employees on campus that were determined to be a CSA. These personnel were trained in 2021 on the policies and protocols for CSAs.

The list of CSAs at HCC has expanded to include advisors, athletic coaches and other members of departments that have significant contact with students and campus activities. For a complete list of CSAs at HCC contact the Chief of HCC Police at 240-500-2501 or go to <https://www.hagerstowncc.edu/hcc-campus-security-authority-training>.

In the Fall of 2024, a CSA training update was developed and distributed to all CSA's as part of their required annual training. All CSA's were required to take a written test and receive a passing score of 70% or higher. Updated CSA lists are maintained by the police department and made assessable on the HCC Police website. In 2024 Officer Scott Lewis with the HCC Police Department took over sending out message and CSA training information to faculty and staff. HCC now has a CSA report form that is accessible, through the HCC webpage, for all campus security authorities. The report can be filled out online and prompts the reporting party to provide required information. Once the CSA Report has been submitted, it sends an automatic notification to the HCC Police Department. The police department can then decide if immediate action needs to be taken, or if it can be followed up on a later date. Any CSA reports submitted can be recalled and electronically stored for auditing purposes. The CSA reporting form can be found on the HCC Police CSA Training tab, or use this link, <https://www.hagerstowncc.edu/hcc-campus-security-authority-training>.

DAILY CRIME LOG

The HCC Police Department maintains a daily crime log of all crimes reported. The log is available for public view in accordance with the 1998 amendments to the Campus Security Act. The log can be viewed in the HCC Police Office during normal business hours or by appointment without charge. The crime log is kept in the security office and can be viewed by the campus community and the public. The HCC Police Department Office is located on the main campus in the Learning Resource Center (LRC) room 115. The most current 60 days of information is available and open to public inspection. HCC Police Department retain archived records for seven years. These records are available, and access may be made by calling the Chief of HCC Police at 240-500-2501. The request can also be sent to ecbyers@hagerstowncc.edu. Requested information will be made available within two business days of the request for public inspection.

CRIME STATISTICS

The HCC Police department prepares and discloses the crime statistics for Hagerstown Community College annually. Members from the HCC Police meet with the Title IX Coordinator (Dean of Students) to review the incident reports from the previous year. This group reviews cases to determine incident classification and if the case meets the reporting requirements. In addition, the group shares information on cases to ensure all incidents were documented and reported. Prior to the submission of the ASR, an email is also sent out to the CSAs asking for all reports to be forwarded for review.

The HCC statistics reflect the enumerated crimes for the past three-year-period occurring on campus, at specific off campus locations, and on public property reasonably contiguous to the campus, as mandated by the Jeanne Clery Act. The statistics are taken from reports filed by the HCC Police, information furnished to the HCC Police by the Washington County's Sheriff's Department and the Maryland State Police Department regarding crimes reported to those agencies, and from notifications to the HCC Police or College Security Authority regarding the occurrence of an enumerated crime. All incidents reported to the HCC Police or College Security Authority are included in the crime statistics, regardless of whether the victim filed charges, or an arrest was made. In cases where the victim/complainant wanted to remain anonymous, confidentiality is maintained, but the incident is included in the statistics. The crime statistics are part of this report and follow the written policies of the College.

TIMELY WARNINGS & EMERGENCY NOTIFICATIONS

A crisis or an emergency on the college campus is generally defined as an incident or event that presents a significant threat to the operations and/or safety of the students, faculty, staff, and visitors. A crisis may be sudden and strike the college with little or no advance notice. These crises usually pose a health or safety threat such as a fire, campus violence or a severe student injury. Hagerstown Community College's Crisis Management Team (CMT) is committed to disseminating factual, timely and accurate information during a crisis or emergency. The Crisis Management Team and HCC Police have the authority to assess the situation, determine what immediate communication is needed and move forward to deliver that communication to the campus community. The HCC Crisis Management Team is comprised of staff members and directors from several different divisions on campus. For example, if there is a major fire in an academic building, the HCC Police would be responsible for initial emergency communications (via HCC Alert, Valcom and Outdoor Siren) with the campus. In the absence of the chief, another member of the police department or a trained college administrator can send messages. HCC recognizes that no one system or person will enable the college to fully warn everyone in a timely manner because each system has limitations. It is imperative to utilize multiple systems and trained staff to effectively broadcast the message to as many of the college students, faculty, staff, and visitors. The college has adopted various modes of communications that can be used in an emergency.

Under the Clery Act, there are two specific alerting requirements that help keep the campus community informed about threats to their own safety and security.

- **Timely Warnings** – HCC will issue a timely warning to the campus community in the event of crimes (i.e. criminal homicide, sexual assault, robbery, aggravated assault, burglary, motor vehicle theft and arson) hate crimes, VAWA Offenses (domestic violence, dating violence and stalking) and arrests and referrals for disciplinary action (weapons, law violations, drug abuse violations, and liquor law violations). In determining if a timely warning should be issued, the HCC Police and CMT will consider the nature of the crime, the continuing danger to the campus community and the possible risk of compromising law enforcement efforts. Timely warnings can be issued using any of the modes of communications (HCC Alert, Valcom PA System, college email, college website). When issued, Timely Warnings will include the date the alert was issued, a succinct statement of the incident, physical description of the suspect(s) and other relevant and important information.

- **Emergency Notifications** – Emergency notifications have a broad applicability and will be used to notify the campus community of any “significant” emergency or dangerous situation. Emergency notifications are limited to the situations that occur on the Hagerstown Community College Campus and satellite locations (Valley Mall/Truck Driving Range). Examples of situations that would warrant the issuance of an emergency notification are an armed assailant on campus, a terrorist incident, civil unrest on campus, a gas leak, a severe weather condition, serious illness, or a hazardous waste spill. HCC will utilize multiple communication platforms to alert and inform the campus community.

On May 2, 2024 a Public Safety Advisory was issued for an indecent exposure that occurred on campus. The advisory was sent via college email to all faculty, staff, and students. This was not a reportable offense, under the Clery Act, but was deemed to be a threat to public safety. The advisory included what the incident was and what steps everyone should take to keep themselves safe. The advisory also encouraged anyone that may have been involved or witnessed something similar to this to report it immediately.

EMERGENCY MASS NOTIFICATION SYSTEMS

In the event of an incident that requires mass notification of a campus or the entire college community, the following modes of mass communication will be utilized:

The Chief of HCC Police and members of the Crisis Management Team will determine the notification level after considering factors such as the type of incident (weather, criminal, accident, etc.), speed of incident, effect on and/or proximity of incident to the college.

In a life-threatening emergency such as an active shooter/active threat, fire/explosion, tornado, hazmat spill, etc. that directly affects life and safety of college constituents or visitors, any Crisis Management Team member or officer of HCC’s Police is authorized to send an HCC Alert, or other appropriate electronic warning, when the sender determines that the failure to act immediately may result in death or serious injury. This process complies with the mandates of the Clery Act, which dictates prompt notification (a timely warning) during the occurrence of a serious and continuing threat to the college community. When a timely warning message is created, the sender will ensure that the message contains (1) the nature of the threat (such as “Tornado impact imminent”), as well as (2) prevention or safety information (such as “Take shelter in severe weather shelters. DO NOT leave the building or enter a vehicle”).

TYPE OF MASS NOTIFICATION SYSTEM(S) UTILIZE

Hagerstown Community College utilizes a combination of the following notification systems as appropriate for the determined level of crisis and the specific incident: audible outdoor siren, audible indoor PA system, indoor signboards, HCC Alert system (Everbridge), HCC email, HCC website, mass media, HCC campus phone system. Based on the situation, HCC can utilize any or all the emergency communication platforms to send a timely warning or emergency notification.

Hagerstown Community College utilizes a combination of the following notification systems as appropriate for the determined level of crisis and the specific incident: audible outdoor siren, audible indoor PA system, indoor signboards, HCC Alert system (Everbridge), HCC email, HCC website, mass media, HCC campus phone system. Based on the situation, HCC can utilize any or all the emergency communication platforms to send a timely warning or emergency notification. ALL HCC students are automatically enrolled in the emergency alert system. The College is also able to enroll parents and family members of students to ensure they receive emergency text messages. In 2024 the outdoor siren was inspected and tested to ensure it was in working condition. Each year the emergency communication and alert systems are tested to ensure operability.

MESSAGE STRATEGY AND PROTOCOL FOR CRISIS COMMUNICATIONS

For all classification levels, an attempt to reach HCC Police should be made prior to issuing the initial campus alert. Cases involving personal safety and security, i.e. a shooting, fire or explosion, may necessitate contacting 911, then when safe to do so, call HCC Police or the Crisis Management Team.

Messages related to reported crimes and/or alleged criminal activity in most cases should be brief, general, and non-descript, based only on confirmed facts. However, serious offenses considered to be an ongoing threat and safety risk may warrant release of descriptions that are detailed in nature. No photos, videos or other evidence will be released, unless specifically directed to share such evidence by allied law enforcement agencies. Example: Robbery reported at HCC in the _____ Building. Police are investigating. Use caution.

Subsequent follow-up messages should be issued, if warranted to provide additional information and/or safety tips. If confirmed facts can allay fear, these should be included. Example: The reported sexual assault at HCC was an isolated incident involving persons known to one another.

Messages should not provide details about suspects who are part of the police investigation, unless directed to do so by the HCC Police Department or the Washington County Sheriff's Office, or when warranted to enhance the safety of the campus (as noted above).

In the case of an active shooter or other major critical incident or disaster where the Washington County Sheriff's Office or Emergency Management has taken over Incident Command, Hagerstown Community College will follow the Washington County Sheriff's Office lead, retweeting and reposting from WCSO to ensure clarity and consistency of message.

EMERGENCY ALERT SYSTEM (EAS)/NATIONAL TERRORISM ADVISORY SYSTEM (NTAS)

All federally licensed broadcast stations and cable systems monitor the national EAS and their state-wide EAS. All participants in the EAS may also initiate their own localized emergency messages.

You can listen to any local radio station or watch any local television station for national or state-wide EAS announcements. Washington County government has a local emergency alert system for citizens. This opt-in system provides text message alerts to members of the community. <https://www.washco-md.net/emergency-management/washcomdalerts/>

The National Terrorism Advisor System (NTAS) provides information on homeland security issues and threats. DHS distributes information regarding threats toward the United States. The types of advisories are bulletin, elevated alert and imminent alert. Bulletins describe current developments or general trends regarding threats of terrorism. Elevated alert warns of a credible terrorism threat against the United States. Imminent alert warns of a credible, specific and impending terrorism threat against the United States. NTAS information can be found at <https://www.dhs.gov/national-terrorism-advisory-system>

STANDARD RESPONSE PROTOCOLS

SHELTER IN PLACE

Sheltering in place means that individuals must seek immediate shelter inside buildings and remain there until emergency management officials issue additional instructions or declare that emergency conditions have ended. Stairwells are good locations to seek shelter in the event of a storm.

BASIC INFORMATION

Sheltering in place is one of several options that are available to emergency management officials in the event of certain emergencies.

Sheltering in Place is usually intended as a short-term option for limiting the potential exposure of persons to hazards that may be present outdoors. These situations may include, but are not limited to:

- Hazardous material (HAZMAT) incidents
- Weather emergencies
- Chemical, nuclear, or biological incidents caused accidentally or intentionally
- A criminal incident that occurs off-campus or adjacent to the campus

NOTIFICATIONS

Ways you may be notified to shelter in place include, but are not limited to

- Alert sirens
- PA speakers or digital signboards
- Emails and text messages via HCC Alert
- College telephone notifications
- Bullhorn or oral notification

ADDITIONAL ACTIONS

- Close all doors and windows to the outside.
- Do not use elevators as they may pump air into or out of buildings (emergency-specific based on the type of hazard).
- Turn off all machinery and air handlers if appropriate.
- If in laboratories, reduce all operations to safe conditions as quickly as possible, pull down sashes on chemical fume hoods, and discontinue laboratory processes that may create hazards if chemical fume hoods, bio-safety cabinets, or building ventilations systems are turned off.
- Limit the use of telephones so that emergency communications will not be hindered by non-essential calls.
- Tune radios or televisions to Emergency Alert System (EAS) stations for further information.
- Restrict outside access to the interior of the building if an exterior chemical or radiological exposure is suspected (keep contaminated persons from entering the shelter area).
- Do not go outside or attempt to drive unless you are specifically directed to evacuate.
- Remain in place until college or emergency management officials tell you it is safe to leave or until information is announced through radio or television broadcasts alerting you that it is safe to do so.

LOCKDOWN PROCEDURES

In the event of a criminal or violent act that has been committed at HCC or in the adjacent areas near the campus, it may become necessary to lockdown campus buildings. When notified by the HCC Police and/or the Crisis Management Team to lockdown, these procedures will be followed:

1. All students, faculty staff and visitors will immediately seek shelter in the nearest room with a door (locking door if available). HCC has installed thumb-style locks on classroom doors on the main campus. Labels have been placed above the locks to clearly distinguish when the door is locked or open.
2. Close and lock all windows and doors. If the door has no lock or cannot be locked manually from the inside, barricade with available items (desks, chairs, bookshelves, etc.).
3. If possible, cover all windows and door windows using shades or curtains.
4. Stay away from all doors and windows, move to interior walls and sit on the floor.
5. Turn off all lights.
6. Remain quiet, silence cellphone ringers and lock (or place phones face-down) to darken the screen.
7. Do not leave until instructed to by law enforcement personnel.
8. If outdoors, safely seek shelter in the nearest building and follow the above procedures.

ACTIVE ASSAILANT

Hagerstown Community College participates in the Department of Homeland Security program, RUN, HIDE, FIGHT. Officers are knowledgeable on how to deal with an active assailant and can provide group or individual training to students, faculty, and staff. Campus Safety and Emergency Preparedness brochures are printed each year and distributed to new students. The brochures are then posted on the HCC Police webpage as an electronic document.

The Student Handbook features a section titled, “How to respond if an active shooter is on campus”. This section provided information on RUN, HIDE, FIGHT. Information was also provided to the students regarding how to respond when law enforcement arrives. There was also information included on how to recognize the signs of potential campus violence.

The HCC Police Department uses tabletop exercises to provide training to students, faculty, and staff. This is an excellent form of training to generate discussions about realistic scenarios. On February 20, 2024 there was an active assailant tabletop exercise with staff members from the Behavioral Science and Humanities Building. The exercise discussed situational awareness, the initial response, and covered the continued response to an active assailant.

On March 14, 2024, the HCC Police Department conducted Active Assailant training in the STEM Building. The training utilized blank rounds and tactical room entries. Police learned how to enter a classroom and lab and effectively engage an active shooter. On April 12, 2024, the HCC Police Department partnered with the Washington County Police Academy to host an active assailant training event. This event also involved EMS, Fire, and other first responders. This critical training exercise allowed first responders and college staff/students to test their core capabilities during an emergency response. During the day, the college sent out messages on the alert system and tested the internal speakers and signboards.

ACTIVE SHOOTER OR ACTIVE ASSAILANT PROTOCOLS

If you are involved in a situation where someone has entered the area and started shooting, or you hear shooting (or a disturbance), the following is a list of actions that are recommended. Take these actions without delay!

It should be noted that these types of incidents are unpredictable. The below guidelines are recommendations that are based on past experiences and advice from the Department of Homeland Security. You may have to alter some of these responses, changing as conditions around you change, depending on the situation.

RUN - Exit the building immediately, (only if it is safe to do so). When safe to do so call 911.

1. If there is an escape route, evacuate immediately
2. Leave your belongings behind
3. Do not try to move wounded people
4. Prevent others from entering the area

HIDE - Seek shelter in a safe location and await instructions from HCC Police, the Washington County Sheriff's Office, the Maryland State Police or any other readily identifiable police officer.

If exiting the building is not possible, the following actions are recommended:

1. Go to the nearest room or office. Be aware of lockable sheltering room locations on your floor.
2. If safe, allow others to seek refuge with you.
3. Close and lock the door. If the door has no manual interior lock, barricade it with large, heavy, available items (desks, chairs, bookshelves etc.).
4. Cover the door windows. Turn off lights. Close the blinds or shades to increase darkness in the room.
5. Keep quiet and act as if no one is in the room. Stand along adjacent walls out of sight. Silence cell phones.
6. DO NOT answer the door.
7. Notify the 911 operator of your location and status.
8. Treat the injured. Remember basic first aid – Utilize public access individual bleeding control kits (STOP THE BLEED) in the AED Boxes see the MEDICAL EMERGENCIES section.
9. Wait for HCC Police or the Washington County Sheriff's Office/Maryland State Police to assist you out of the building.

FIGHT - Defend yourself, or others, as if you are under attack and this action is your only option. Remember: you may only use force sufficient to stop and overcome the attack. The force you use may not be excessive or punitive. If able to do so, try and separate the suspect from the weapon. If the weapon is a long gun, try to take the gun to the floor and disarm the suspect. You should act quickly to disorient and disarm the suspect. Be aggressive and commit to your actions.

1. Notify anyone you may encounter to exit the building or hide immediately.
2. Call 911 from a phone.
3. Give the 911 operator the following information:
 - Your name, campus, and building
 - Location of the incident on campus (be as specific as possible: campus, building, floor, room number)
 - Identification or description of shooter(s)
 - Number of persons who may be involved, direction of travel if they have left the building
 - Number of potential victims

POLICE RESPONSE

Police are trained to respond to an active shooting incident by entering the building as soon as possible and proceeding to the area of the shooter(s). Officers will move quickly and directly. Early in an incident, officers may not be able to rescue people because their main goal is to get to the shooter(s).

Involved persons need to try to remain calm and patient during this time so as not to interfere with police operations. Bleeding control kits are located across the campus. These kits contain medical supplies used to control/stop serious bleeds. These kits are designed and put in place to provide a means to provide lifesaving capability to those persons involved in an active assailant incident.

Cooperate with officers who may ask you information concerning the incident. Normally, a rescue team is formed shortly after the first responding officers enter the building. They will be the officers who will search for injured parties and get everyone safely out of the building. Follow all directions of officers at the scene or responding to the scene. Comply with orders given by officers.

Keep your hands in sight and do not make sudden moves towards officers.

GENERAL EVACUATION PROCEDURES

When evacuating your building or work area:

1. Stay calm, do not rush and do not panic.
2. Safely stop your work.
3. Gather your ESSENTIAL personal belongings, including outerwear, keys and cell phone, only if safe to do so. (Reminder: take your prescription medications with you if at all possible; it may be hours before you are allowed back into the building).
4. If safe, close your office door and window, lock them for security reasons.
5. Use the nearest safe stairs and proceed to the nearest exit. Do not use the elevator. Proceed to the designated Emergency Assembly Area unless the evacuation is for a bomb threat. In that case, assemble as directed by law enforcement officers and Evacuation Coordinators.
6. Wait for instructions from emergency service workers.
7. Do not re-enter the building or work area until you have been instructed to do so by the emergency service workers.

SECURITY AWARENESS AND PREVENTION

Many departments and hundreds of people support the mission of the HCC Police Department by actively promoting safety and security on this campus. However, a truly safe campus can only be achieved through cooperation of all college community members. A critical component of a security plan is the use of security camera surveillance system. Security cameras are installed throughout campus to deter crime, assist with investigations and protect the safety of persons and property. The College respects the privacy of the campus community and adheres to all laws and best practices when utilizing the system. Signs are posted on all of the buildings indicating the use of surveillance cameras. HCC participates in the Department of Homeland Security program, "See Something, Say Something". Posters are located on campus encouraging the community to report suspicious or dangerous behaviors.

Help keep the campus safe for yourself and others by reporting any suspicious activity, incident, or emergencies to 911 and the HCC Police Department 240-500-2308.

ADDICTION AWARENESS

HCC has teamed up with the Washington County Health Department to provide regular NARCAN trainings on campus. The Behavioral Health Unit at the Washington County Health Department has also provided large doses of NARCAN to be distributed across the campus. HCC Police Department have placed several doses of NARCAN in all the AED boxes. These boxes are in all the student-used buildings on campus. During orientation, new students are provided with information on the dangers of opioids and addiction awareness training.

In addition, a NARCAN video was created at HCC with assistance from the local health department. This brief video describes the signs of an opioid overdose, provides information on NARCAN, and where it can be found on campus. The video also urges the viewers to reach out for help if they or someone they know are struggling with addiction. Hagerstown Community College has a Behavioral Intervention Team (BIT) that can connect students or staff to resources to deal with someone that is struggling with an addiction. There were no reported incidents of NARCAN being used on campus in 2024.

The HCC Police department provides First Aid, CPR and AED training to staff members on campus. During that training police train staff on the use of NARCAN and provide them with doses. There are monthly Narcan trainings hosted at HCC throughout the calendar year.

CANNABIS LAW CHANGES 2023

Hagerstown Community College, like other colleges and universities across the state, receives funding from the federal government. As a result of this, HCC falls under the 1989 Drug-Free Schools and Communities Act (DFSCA). This act requires institutions of higher education to establish policies that address the unlawful possession, use or distribution of alcohol and illicit drugs for faculty, staff and students. Under federal law, cannabis is still considered a controlled substance. Therefore, Hagerstown Community College *prohibits the possession and/or use of cannabis on all college properties and college-sponsored activities*.

HCC **prohibits** the possession and use of **all** cannabis, including recreational and medical cannabis. You may not possess or use medical cannabis on any college property or at any college-sponsored event. The HCC Student Code of Conduct will be used to address students found to be in possession and/or use of cannabis on college property. The HCC Police Department will continue to enforce this policy on campus. Those students who violate the HCC campus policies will be subject to disciplinary action from the Dean of Student’s Office and potential civil fines from the state of Maryland. Expectations and consequences for employees regarding possession or use of cannabis on college property or during college-sponsored activities are outlined in the Employee Handbook. The possession, use and/or distribution of cannabis on the campus of Hagerstown Community College can result in civil penalties if the offender is determined to have more than the personal use amount or is under the age of 21. Those violations can result in monetary fines being placed against students, faculty, and staff in the form of civil citations. A message regarding these changes was sent out to the entire campus community in August of 2023.

FIRE SAFETY

Each year Hagerstown Community College hosts a program called College for Kids. For two months over the summer children from the local public school system come to HCC for a college experience. Each week, the police department works with the Facilities Department to test and conduct fire drills in the various buildings. This gives the college the opportunity to test the fire alarms and practice fire safety drills.

Several members at HCC participated in online Crowd Manager training sponsored by the North Carolina Department of Insurance and Office of the State Fire Marshal. This specific training was suggested by the Office of the State Fire Marshal for the State of Maryland. This course dealt with fire safety and crowd control management issues.

Security Officers with the HCC Police Department Department conduct monthly fire extinguisher inspections. Fire extinguishers are placed inside all the buildings on campus and are inspected each month to ensure they are in working condition. In December of 2024 the HCC Police Department conducted a fire safety training in the STEM Building. Staff/students were trained on how/when to activate the fire alarms to evacuate a building. In addition to this, staff/students were trained on how to use the FERNO evacuation chair during an emergency situation. The outdoor emergency siren was also tested on this date to ensure it was operational. The HCC Crisis Response Team sent test messages using the HCC Alert system. This is done each year to ensure the system is working and staff are familiar with how to send messages.

AEDS & STOP THE BLEED BOXES

The College has Automatic External Defibrillators (AEDs) in all of the student-used buildings on campus. HCC Police Department have partnered with the local health department to obtain doses of Naloxone (NARCAN) to place inside each of the AED boxes. Each box has approximately 2 doses of NARCAN inside with a pair of rubber gloves, and an instructional sheet. If the door is opened on the AED box, an alarm will sound alerting others in the area to the emergency. There are Stop the Bleed boxes located in the buildings on campus. These emergency kits can be used to treat serious injuries and help save lives. HCC works with the Washington County Health Department to provide Stop the Bleed training on campus.

BEHAVIORAL INTERVENTION TEAM (BIT)

The BIT team is a group of student services personnel that meets regularly and receives and tracks reports of disruptive, problematic, or concerning behavior or misconduct. The BIT team responds to behavior reports made from faculty and staff across campus and follows up accordingly. When appropriate, this follow-up involves performing threat assessments using NaBITA tools. The BIT Team utilizes a computing software system that allows faculty and staff to report concerning student behavior issues. The BIT team is focused on early detection, prevention and when needed intervention efforts to address concerning behavior. The BIT team may be called upon during an incident to assist the Crisis Management Team. BIT and CARE team members are not professional counselors or pastoral counselors on campus. The College has a separate CARE team that provides intervention, support and follow up services to students in need of non-academic support, including referrals for off-campus counseling. For additional tips on student health and wellness go to: <https://www.hagerstowncc.edu/student-health-wellness>

EMERGENCY OPERATIONS PLAN

The safety and security of the college community are of vital concern. Hagerstown Community College is committed to providing and maintaining a safe environment for all employees, students, visitors, and guests. The college has developed an all-hazards approach to managing disasters/emergencies (“emergency incident”) to include mitigation, preparedness, response, and recovery.

The Emergency Operations Plan (EOP) was prepared by Hagerstown Community College to develop, implement, and maintain a viable all-hazards response capability and to establish a comprehensive approach to providing consistent, effective, and efficient coordination across a spectrum of activities. The EOP draws upon the nationally recognized standards of the National Incident Management System (NIMS) and the Incident Command System (ICS) developed by the Department of Homeland Security/Federal Emergency Management Agency. The EOP supersedes all previous plans.

The purpose of developing this Emergency Operations Plan is to define and describe the process taken by the college community to effectively prepare/plan for, mitigate, respond to, and recover from various critical incidents, major events, emergencies, or disasters that may affect lives, property, and the institution.

Hagerstown Community College’s administration gives its full support to this plan and requires all college personnel with emergency management responsibilities to read and understand all components within this plan. In addition, the College administration urges all faculty, staff, and students, individually and collectively, to be familiar with the plan.

RESPONSE

Concepts presented in the Emergency Operations Plan (EOP) consider the full spectrum of responses, from minor incidents to a total involvement from destructive impacts. Some incidents or events will be planned or preceded by buildup periods that, if recognized and analyzed effectively, can provide advance preparation or warning to individuals on campus who might be affected. Other emergencies occur with little or no advance warning, requiring mobilization and commitment of campus resources just prior to or after the onset of the emergency. All available elements of the EOP organization must respond promptly and effectively to any foreseeable emergency. The EOP is designed to effectively coordinate the use of college and community resources to protect life and property both during and immediately following a major crisis or disturbance on or near the Hagerstown Community College or its offsite location. It shall be placed into operation whenever an emergency affecting the College cannot be controlled by using daily operating procedures.

HCC has created an emergency response plan for the following events:

Active Shooter	Weather Emergencies	Bomb Threat
Civil Disturbance	Fire Emergencies	Haz Mat Incident
Infrastructure Failure	Medical Emergencies	Opioid Overdose

ACCESS TO CAMPUS FACILITIES

During normal business hours many of the buildings and grounds are open to the public, provided there is no disruption to classes, staff or college events. To assure the college provides safety and security conducive for an institution of higher education, the college reserves the right to restrict access to any or all campus and non-campus buildings; parts of the campus or the entire campus as the need arises. After normal business hours the buildings are locked utilizing the electronic locking system and access to the buildings is prohibited except by authorized personnel. The electronic locks can be used to lock the exterior doors on one or all the campus buildings from a remote location.

The normal business hours are Monday through Friday, 8:00 a.m. to 10:00 p.m. and Saturday, 8:00 a.m. to 4:30 p.m. The College is closed on Sundays, except for motorcycle safety classes held during the summer months. Access to the college facilities is limited to those areas and classes. The college is also closed on all official holidays recognized by the college. During inclement weather or extreme emergencies, the College may announce it is closed. Notification of such closures will be broadcasted on the college website, emails will be sent using the HCC email system, and text message will be sent using HCC Alert. HCC Alert is a cell phone text messaging system that is part of the Emergency Communication System.

DRUG AND ALCOHOL ABUSE POLICY

Hagerstown Community College supports the efforts of the State of Maryland and the United States to provide workplaces and learning centers free of illegal drug and alcohol use. The College supports the Federal Drug-Free Workplace Act of 1988, the Federal Drug-Free Schools and Communities Act Amendments of 1989, and drug and alcohol abuse policies of the Maryland Higher Education Commission.

It is the college's intention to provide and maintain a work environment for the employees and students that is drug-free, healthful, safe, and secure. Employees are expected and required to report to work each day on time in an appropriate mental and physical condition, free of any illegal drugs/alcohol, and capable of fulfilling their daily duties. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance (as defined by the Controlled Substance Act 21 U.S.C. section 802 and further defined at 21 D.F.R. sections 1300.11 - 1300.15) and the unlawful possession or use of alcohol on college property or as part of any college activities off-campus is absolutely prohibited. Any unlawful activity with controlled substances or alcohol by students or employees while involved with a college activity, on or off the campus, will not be tolerated.

Certain student financial aid awards may only be made if the student is willing to certify or pledge that they will not engage in unlawful activities regarding drugs and alcohol.

HEALTH RISKS

Although the College recognizes drug/alcohol dependency as an illness and a major health problem affecting society, it also recognizes illegal drug use and activity as a potential health, safety, and security problem. Students and employees requiring assistance to deal with drug or alcohol abuse or dependency are encouraged to seek counseling and/or medical assistance using the college's health insurance plan, as may be appropriate, or through the Student and Employee Assistance Program which offers counseling and referrals. The following is a brief description of several drugs and their health risks.

1. Alcohol: When alcohol is abused, the consequences to the body can be severe. All systems of the body are affected. The effects on the central nervous system include poor memory, premature aging of the brain, and loss of reasoning ability. There is also the possibility of an increase of cancer of the mouth, larynx, and the esophagus along with the possibility of heart rhythm disturbances. In addition, alcohol abuse can lead to significant liver damage.
2. Marijuana: Users often have chronic bronchitis and run the added risk of lung cancer. Heavy users, especially among the young adult population, may show slow and confused thinking, loss of energy, and physical discomfort caused by abdominal cramps and diarrhea. Other side effects associated with chronic use of marijuana are chromosome damage, decreased levels of the male sex hormone, and brain damage.
3. Cocaine: Cocaine abusers often have a stuffy, runny nose with eczema around the nostrils and possible perforation of the nasal septum. In addition, cocaine can cause delirium, hallucinations, blurred vision, severe chest pain, muscle spasms, convulsions, and even death.
4. Amphetamines: These drugs can cause very rapid or irregular heartbeat, tremors, loss of coordination, collapse, and even death from heart failure or from burst blood vessels in the brain. Heavy users are prone to irrational acts.
5. Heroin: This is an opiate drug that causes the body to have diminished pain reactions. Some of the risks associated with the use of heroin include slowing of the heart rate so much that coma and death can be induced. In addition, chronic constipation and depression of male and female sex hormones are other associated risks from heroin.
6. Prescription Drugs: These drugs are not illicit if they are used in accordance with the prescription. However, sharing prescription medication with someone else is illegal and could be very harmful.

STUDENT & EMPLOYEE RESPONSIBILITIES

As a condition of employment, College employees must abide by the terms of this statement. In addition, employees have an affirmative duty to report any conviction under any criminal drug or alcohol abuse statute or other law within five days of conviction. This duty to report is required whether the criminal violation occurred on or off campus.

Violations of this policy statement shall be immediately addressed by the college and may result in disciplinary action which could include expulsion for students or termination for employees. The College may also refer violations for criminal prosecution by civil authorities where circumstances warrant.

Referral resources, including a list of agencies in the area which may be called for counseling services, is available via the BIT/CARE team, Dean of Students, or HCC Police.

STUDENT MISCONDUCT POLICY (#8071)

Policy Approved, Board of Trustees: September 15, 2020

In addition, some forms of sexual misconduct violate the criminal laws of the State of Maryland. The college is committed to taking necessary measures in an effort to prevent incidents of sexual misconduct and taking action to support all parties involved, ensure a fair review process for all parties involved, and take appropriate action should an incident be reported. Sexual misconduct is an umbrella term that encompasses various types of prohibited conduct, including sexual harassment, sexual assault, domestic violence, dating violence and stalking.

Hagerstown Community College will not tolerate acts of sexual misconduct in any form and will maintain procedures compliant with federal and state regulations; procedures can be found in detail on the College web page.

TITLE IX/SEXUAL MISCONDUCT SUPPORT MEASURES

Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the parties to restore or preserve access to the College's education program or activity, including measures designed to protect the safety of all parties or the College's educational environment, and/or deter harassment, discrimination, and/or retaliation.

The Title IX Coordinator promptly makes supportive measures available upon receipt of a report or a complaint alleging possible sexual harassment. At the time that supportive measures are offered, the College will inform the Complainant, in writing, that they may file a formal complaint with the College either at that time or in the future, if they have not done so already. The Title IX Coordinator works with the parties to ensure that their wishes are taken into account with respect to the supportive measures that are planned and implemented.

The College shall maintain the confidentiality of the supportive measures to the greatest extent reasonably practicable, provided that confidentiality does not impair the College's ability to provide supportive measures or otherwise fulfill its obligations under this Process. The College will implement measures in a way that does not unreasonably burden the other party.

Supportive measures may include, but are not limited to, counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, referral to medical or healthcare services, referral to community-based services, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures.

AMNESTY FOR COMPLAINANTS AND WITNESS

HCC encourages the reporting of misconduct and crimes by Complainants and witnesses. Sometimes, Complainants or witnesses are hesitant to report or participate in grievance processes because they fear that they themselves may be in violation of certain policies, such as underage drinking or use of illicit drugs at the time of the incident. Respondents may hesitate to be forthcoming during the process for the same reasons.

It is in the best interests of the College community that Complainants choose to report misconduct to College officials, that witnesses come forward to share what they know, and that all parties be forthcoming during the process.

To encourage reporting and participation in the process, the College may offer parties and witnesses amnesty from minor violations of other College policies – such as underage alcohol consumption or personal use of illicit drugs – that may be associated with the incident.

Amnesty does not apply to more serious allegations, such as physical abuse of another or illicit drug distribution.

GETTING HELP

Being a victim of crime is a traumatic experience that may have physical and psychological effects. It is important for anyone who has been the victim of a sexual harassment, dating violence, domestic violence, or stalking to go to a safe place and seek assistance as soon as possible. HCC encourages any person who believes he or she has been a victim of an act sexual misconduct occurring at HCC or during the course of an HCC-sponsored activity to call HCC's HCC Police (240-500-2308 or 240-500-2334) as soon as possible. HCC Police are available every day that the college is open and when campus activities are scheduled; specific hours of operation can be found at hagerstowncc.edu.

HCC Police will inform an alleged of sexual misconduct of the right to notify the appropriate law enforcement agency to file criminal charges and the importance of preserving evidence associated with the crime. With the victim's consent, the HCC Police will notify the Washington County Sheriff's Department to conduct an official criminal investigation of any allegation and where appropriate will arrange for the victim to be transported to Meritus Medical Center for medical evaluation and treatment.

Student victims will be connected with HCC's Title IX Coordinator and a member of the HCC CARE Team for support through the reporting process. The CARE Team will also refer the student victim to off-campus resources specifically experienced in dealing with sexual offense crises. Only those HCC employees with a legitimate need-to-know will be informed of reported incidents. Normally that will include the Title IX Coordinators, and the Vice President of Academic Affairs and Student Services.

Preserving physical evidence is critically important to the sexual assault legal process. The collection of evidence from a crime is based upon a scientific principle that states that whenever two surfaces come in contact there will be an exchange of material. Physical evidence, such as DNA from semen, saliva and skin cells, and fingerprints, hair, and fibers are all types of evidence that can be transferred from the suspect to the victim and from the victim to the suspect. It is important that evidence be collected in a timely manner, free from contamination, and stored properly in order for that evidence to be used in criminal proceedings. The victim of a sexual assault should not change clothes, smoke, bathe/shower, urinate, douche, wash hands, brush teeth, eat or drink before the evidence can be collected.

If a victim of sexual assault elects to go to the hospital, an advocate or designated hospital staff member will provide the following options:

- report to police and receive a forensic exam
- receive a forensic exam as an anonymous report
- receive medical treatment only

Sexual Assault Forensic Evidence (SAFE) kits are collected by a trained Forensic Nurse Examiner (FNE). FNEs are nurses, not law enforcement personnel, who have been specially trained in the collection of sexual assault evidence.

A victim may decline to have a SAFE kit collected or may elect to have a kit collected as an anonymous reporting (i.e., "Jane Doe" kit). Anonymous reporting/Jane Doe kits allow the victim of a sexual assault to have a SAFE kit collected without having to report the crime to law enforcement. The evidence will be collected, given a tracking number, and stored for future use. It is important to note that Jane Doe kits are merely stored for potential use if the victim decides in the future to make a report. The evidence is not examined at the time it is collected; therefore, investigative leads, such as identifying a suspect, are not developed.

If the anonymous report option is selected, the victim will be told:

- the benefits of anonymous reporting (e.g., time to weigh options before participating in the criminal justice system)
- the drawbacks of anonymous reporting (e.g., challenges for the investigation and prosecution)
- the length of time for which evidence will be stored
- who to contact, and how, if the victim decides to report

For more information on anonymous reporting, visit the Governor's Office of Crime Control and Prevention's website: goccp.maryland.gov/victim/.

The following additional efforts to prevent sexual misconduct are in place in the Athletics Department:
