Session Descriptions

Subject Training I – Prepare for the upcoming academic term with the latest course updates and instructional resources. Welcoming both new and returning instructors, this workshop offers a collaborative environment to network with your peers, connect with the college staff, align standards, and share best practices.

Subject Training II – This block is for instructors who were in a different subject training for the first session or for disciplines that need additional time beyond the first session.

Self-Service / Library / LSC Support Presentation - This session equips participants with the knowledge needed to help students navigate the college's resources. The presentation features an overview of Self-Service, which is the college's student information system, and outlines the academic resources available through both the William M. Brish Library and the Learning Support Center.

College Procedures and NACEP Application Update Presentation - In this presentation, participants will review key college policies and procedures for addressing common administrative situations faced by dual enrollment instructors. Additionally, an update will be provided on the National Alliance of Concurrent Enrollment Partnerships (NACEP) accreditation application.

*Session I and II room assignments are listed on the back of this agenda
