2004	36	2005	25	30.5	24	96.0	90.91
2003	30	2004	22	26.7	19	86.4	86.67

+ Results are reported by graduating class

\* Results are reported 7/1 through 6/30 and may include data from the present and previous year's class.

<sup>^</sup> MBON: Maryland Board of Nursing

Each spring the PN faculty with the Director of Nursing (DON) review the curriculum, documented outcomes, and clinical/lab criteria. The use of the ATI Testing standardized examination criteria are reviewed immediately after administration to determine any changes in course content and content delivery. The PN faculty does not teach to the ATI examinations, but ATI Testing Company is a resource in offering criteria that follows the NCLEX-PN examination plan.
