WHAT IS ACCOUNTING?

Accounting is the centerpiece for business. Accountants and auditors help to ensure that the nation's firms are run efficiently, its public records kept accurately, and its taxes paid properly and on time. Accountants can work independently or as part of a firm. Beyond carrying out the fundamental tasks of the occupation—preparing, analyzing, and verifying financial documents in order to provide information for clients—many accountants also offer budget analysis, financial and investment planning, information technology consulting, and limited legal services.

Public accountants perform a broad range of accounting, auditing, tax, and consulting activities for their clients, which can include corporations, governments, non-profit organi-

zations, or individuals.

WHAT IS THE EMPLOYMENT OUTLOOK FOR THIS CAREER?

Accountants and auditors held 1.2 million jobs in 2012. They worked throughout the private industry and government, but 25 percent of wage and salary accountants worked for accounting, tax preparation, bookkeeping, and payroll services firms. Accounting jobs are expected to grow steadily as the economy expands, resulting in stricter accounting and auditing regulations, and thus, more accountants (source: www.bls. gov/ooh).

WHAT DO ACCOUNTANTS EARN?

The median annual wage for accountants and auditors was \$63,550 in May 2012. The median wage is the wage at which half the workers in an occupation earned more than that amount and half earned less. Salaries will vary depending on location, size of firm, level of education, and professional credentials (source: www.bls.gov/ooh).

WHY SHOULD I COME TO HCC?

HCC is an institution that focuses on its students. Small class sizes, usually 25 students or less, allow for more student/teacher interaction. Students are afforded the opportunity to learn by experiencing work-related functions so that they may have a better understanding of what they will experience in the working world. By giving students a detailed background in the accounting field, HCC graduates will be better prepared for CPA certification.

WHAT IS BUSINESS ADMINISTRATION?

The Business Administration Program prepares students to transfer into accounting, finance, marketing, management, economics, human resources, or other business-related programs at four-year institutions.

Students may go on to become accountants, financial analysts or advisors, economists, managers, bankers, researchers, public relations personnel, advertising or promotion personnel, business owners or consultants. The potential for growth and advancement is extremely high.

WHAT IS THE EMPLOYMENT OUTLOOK FOR THIS CAREER?

Job growth in business careers will continue to be strong. Out of the top 10 degrees in demand by employers, six are in business related areas (source: NACE Job Outlook 2012):

- Accounting
- Business Administration/Management
- Economics
- Finance
- Logistics/Materials Management
- Management Information Systems

WHAT ARE THE AVERAGE EARNINGS IN THE BUSINESS ADMINISTRATION FIELD?

Salary levels vary substantially depending upon the level of job or managerial responsibility, length of service, education, size of firm, location, and industry.

Business majors with bachelor's degrees will continue to experience significant increases in starting salaries, according to the *National Association of Colleges and Employers' Fall 2012 Salary Survey.*

National Average Starting Salaries by Business Major:

| Economics | \$54,800 |
|------------|----------|
| Finance | |
| Marketing | \$49,600 |
| Management | |
| Accounting | |

WHY SHOULD I ATTEND HCC?

The Business Administration Program at HCC is a high-quality, reasonably priced route to a four-year degree in a variety of business fields. Articulation agreements with colleges in Maryland, Pennsylvania, and West Virginia, and a dual enrollment program with Shippensburg University, make it extremely easy and efficient for students to transfer from one institution to another and complete their education and business training.

For more information about HCC graduation rates, the median debt of students who completed the program, and other important information, visit www.hagerstowncc.edu/business.

WHAT DO MANAGERS DO?

Managers have a wide range of responsibilities depending on their organization. The competencies that an effective manager needs to develop include achieving results, providing leadership, facilitating change, and using resources efficiently and effectively. This is not done alone, but rather through working with other people. HCC's management courses provide the learning environment to develop these competencies.

WHAT CAN I DO WITH MY DEGREE?

Many students begin their college degree at HCC because of the quality of teaching, convenience, and affordable cost. Many move on to four year schools to earn their bachelor's degree.

Often managers working in local businesses, notfor-profits, and governmental agencies choose to earn their management certificate in order to prepare themselves for advancement.

WHAT DO MANAGERS EARN?

Salary varies greatly according to skill level, industry, and highest degree earned. A manager's salary can range from the mid \$40,000s to upwards of \$100,000 depending on the industry and an individual's experience and educational background. Detailed salary information and estimated earnings are available at www.bls. gov/ooh.

WHY SHOULD I COME TO HCC?

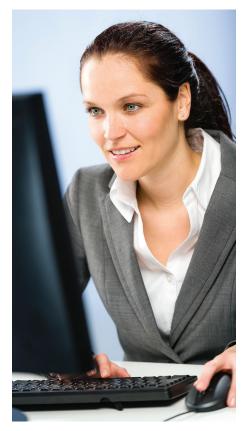

The program is designed to help you establish your management credentials. It is manageable for any part-time or full-time working student. You can start with the letter of recognition in management, then continue to earn your certificate in management. Both the letter of recognition and the certificate in management are available in online format for all courses. This builds the basis for continuing your management education and earning your A.A.S. degree in management.

For more information about HCC graduation rates, the median debt of students who completed the program, and other important information, visit www.hagerstowncc.edu/business.

The management certificate provides students with the opportunity to learn the concepts and principles of management as applied to either of the following options: management or marketing studies. The program is structured for students to focus on their preferred field of study or courses of interest, so that their studies may be closely related to their particular needs and may possibly be applied to higher academic objectives.

A.A.S. Degree

Management

General Education Requirements 21-23 credits

The management program provides managers and prospective managers with a broad educational experience designed to develop and improve management effectiveness. Students are expected to acquire basic competence in a wide range of business and management functions. They will also examine the outside forces that influence business and management, and consider the responsibilities of business and management in society. Students should consult with their academic advisors.

A.A.S. Degree Option

Management: Marketing

The Management: Marketing Program prepares students for marketing careers that are growing and will continue to expand. Students learn about the basic functions of marketing. These functions include distribution, financing, marketing information management, pricing, product/service planning, promotion, purchasing, risk management, and selling. In teaching a core marketing curriculum, academics are related to the work place; thus this program is appropriate for people seeking careers in either profit or nonprofit organizations.

WHAT DOES AN ADMINISTRATIVE ASSISTANT DO?

Administrative assistant positions involve activities such as being an information manager for an office, scheduling meetings and appointments, organizing and maintaining paper and electronic files, managing projects, conducting research, providing information to internal and external customers, preparing correspondence, handling travel arrangements, and using software applications. Proficiency in keyboarding, spelling, punctuation, and grammar skills is expected, along with oral communication and multitasking skills. Workplace skills include coordination, problem identification, information organization, time management, and management of financial resources.

Tests and certification for entry-level office skills are available through the International Association of Administrative Professionals and National Association of Legal Secretaries.

WHAT IS THE EMPLOYMENT OUTLOOK FOR AN ADMINISTRATIVE ASSISTANT?

The employment outlook for administrative assistants is very good. Job growth is estimated to be 12 percent each year through 2020 according to the U.S. Bureau of Labor Statistics.

Employment is available in areas such as service industries, manufacturing, finance, construction, wholesale and retail trades, real estate firms, federal, state, and local government, as well as many other areas.

WHAT ARE THE AVERAGE EARNINGS OF AN ADMINISTRATIVE ASSISTANT?

Median annual pay for administrative assistants was \$35,330 in 2012. Salaries will vary depending on location, size of firm, and level of education and experience (source: www.bls.gov/ooh).

WHY SHOULD I ATTEND HCC?

HCC offers short-term preparation for your career change and allows you to enhance office skills for entry-level positions.

Credit-by-exam testing is available for some courses. For those with long-term educational goals, most courses in this program apply to other HCC degree programs in business or technology and computer studies, and classes taken at HCC will transfer to most four-year colleges.

For more information about HCC graduation rates, the median debt of students who completed the program, and other important information, visit www.hagerstowncc.edu/business.

WHAT RESPONSIBILITIES DO CUSTOMER SERVICE ASSISTANTS HAVE?

Customer service related positions involve activities such as operating office equipment, giving information on events and procedures, answering questions about products and services, answering business telephone inquiries, interviewing people to obtain information, and compiling and cataloging written information.

Qualifications and characteristics in both large and small organizations include broad general knowledge of products and services, interpersonal communication skills, technical expertise related to products sold and serviced, positive customerfocused "can-do" attitude, as well as initiative, motivation, integrity, team spirit, excellent time management skills, and conflict resolution skills.

Certification testing is available through the International Customer Service Association.

WHAT IS THE EMPLOYMENT OUTLOOK?

The customer service employment outlook is good. Growth is estimated to be 15 percent each year according to the U.S. Bureau of Labor Statistics.

Locally, employment is available in call/contact centers, health care services, personal services, retail businesses, help desks, travel, telecommunications, insurance, tourism, government, financial services, real estate, and more.

WHAT ARE THE AVERAGE EARNINGS?

The median annual pay for customer service representatives was \$30,580 in 2012. Salaries will vary depending on location, size of firm, and level of education and experience (source: www.bls.gov/ooh).

WHY SHOULD I ATTEND HCC?

HCC offers a wide variety of business courses that are suited to helping students get a head start into the customer service field. The courses offered at HCC cover everything from basic keyboarding and word processing skills to management and marketing classes designed to help students learn how to manage and work with people effectively. This program is especially beneficial in helping students expand their skills and abilities beyond the administrative assistant letter of recognition.

SUCCESS TIPS FOR ONLINE STUDENTS

Take responsibility for your learning

Successful online students are self-motivated, self-disciplined, and are able to learn and work independently. Taking an online course requires you to teach yourself with the online tools made available for your learning.

Don't procrastinate

Online courses have a schedule and due dates for assignments. Allow yourself enough time to get the reading and the assignments completed and submitted by the deadline. Don't wait until the last minute – you never know when you'll run into a technical problem.

Have a back-up plan in place in case of technical problems

Be prepared for technical problems with your computer or Internet access by creating a back-up plan. Remember that there are computers available on the HCC campus and at public libraries in case you need them.

Check Moodle and your HCC email account daily

You are encouraged to check your student email, Moodle, and any other course sites (such as MyLab) every day for reminders, updates, or changes to the class schedule.

Seek help if you encounter problems

There is help available if you're having trouble in your course. Contact HCC's Distance Learning Department at <code>distlearn@hagerstowncc.edu</code> if you experience technical issues. Contact the Learning Support Center at <code>lsc@hagerstowncc.edu</code> for tutoring and other academic assistance.
